#### I. Letter to Shareholders

In 2018, the escalation of trade conflicts between China and the US adversely impacted the global economy. Political and economic uncertainties remained high due to the retaliatory tariffs and trade policies, resulting in the slowdown of global economic growth. In China, there has been a polarizing trend in the tire industry—while industry leaders continued to thrive, other companies either shut down or filed for bankruptcy, which lead the competition to being increasingly aggressive. For CST, revenue growth from our factories in India and Indonesia was weaker than expected; Tianjin Tafeng transitioned into a logistics and service center for the Group in the northern region. These factors together with currency depreciation contributed to our NT\$109.2 billion consolidated operating revenue in 2018, a 2.75% decline from the previous year.

However, there is an opportunity in every crisis, and it is imperative for us to continue seeking opportunities to break through before the turnaround. Our technologies are well-accepted from within the industry and we have earned customers' trust by demonstrating our products' qualities, evidenced by the recognition and awards received from numerous tire magazines and test reviews in Taiwan and abroad. The MAXXIS proving ground in Kunshan, China is a world-leading facility where various testing of tire performance, durability, noise and safety are conducted. Many automobile manufacturers use the facility for the R&D and testing of new vehicles, which gives us a chance to pitch for orders. Within the company, we have continued to enhance our organizational and management capabilities, strengthen talent development, and share success stories— leading the way to transforming adversity into advantage and creating revenue growth.

Our strategy remains to focus on the following areas: driving the tire repair market (RE) with the vehicles assembly factories (OE), and promoting the collaboration between vehicles assembly factories (OE) with the tire repair market (RE). We also incorporates the concept of driving sales by marketing into our strategy. B We will continue to deeply understand and respond to the needs of customers and formulate new market strategies to branch out to new or undeveloped markets to fulfill our vision in becoming the top five companies in the tire industry by 2026 and to create new momentum for the Group.

(3) Key Production and Distribution Policy

Customer satisfaction being our top priority, we put ourselves in our customers' shoes to look at the business from their points of view in order to better understand their needs. In addition, we aim to develop new products to solve their pain points, thereby creating value for our customers. The production, distribution and development teams will work together to meet customers' demands.

- 1.3 Future Development Strategies
  - (1) Continuing to develop products from all lines and formulating different sales models tailored to local markets based on the existing business.
  - (2) Promoting production process rationalization and flexibility to harmonize the production and distribution and to reach the most profitable business scale; implementing comprehensive quality management to achieve the goal of delivering top-quality products.
  - (3) Optimizing quality and developing private-label products to increase market share and to establish complete global distribution channels and brand management strategies.
  - (4) Continuously conducting R&D activities to maintain a leading position in manufacturing technology in the market and to take full advantage of the economics of large-scale production.
- 1.4 Impact From External Competition and Overall Business Environment

Competitions from second movers have been a great challenge to Cheng Shin, which include Chinese tire makers opening their plants in the US. In response to

these challenges, we have recently planning a global strategy for the products deliveries to automobile manufacturers. With our accumulated experience in the field, it affords us the opportunity to form business relationships with more automobile manufacturers, thereby increasing our business size and revenues.

Our existing volume of procurement has been affected by huge currency volatility in emerging markets due to political instability in these regions. Additionally, some tire manufacturers began to build factories locally and expanded their production capacity to join the local supply chain to gain competitive advantage. These factors together with fluctuations of raw material prices in 2018 impacted Cheng Shin's business planning in the tire industry.

We closely monitor the fluctuation in market supplies and demands and make price adjustments when appropriate. We also proactively share market intelligence with regional distributors to replace less competitive products with high value added products by capacity-efficient mass productions to respond to the increasing market demands and changing challenges.

As the environment in 2019 and the next three to five years will change more dramatically, we need to quickly improve our adaptability, core competencies and competitive advantages. Only when we elevate our ability and competitiveness to be among the best of the world will we be able to thrive in this sophisticated and ever-changing market. In the future, we will be building our core competencies by strengthening our technological, operational and sales, manufactural and managerial capabilities.

#### 1.5 Impact of Regulatory Environment

Tires are the key safety features of all types of vehicles, and, therefore, the regulations in each country provide clear and strict rules regarding tire standards, specifications and requirements applicable to tire products. In distribution and marketing, tire manufacturers are also required to comply with relevant laws and regulations and are prohibited from engaging in activities in violation of competition and marketing laws.

Due to environmental and safety considerations, every region and country has adopted tire labeling regulations to govern tire rolling noise, wet grip capacity, and rolling resistance. In addition, tire products for vehicles are required to be labeled with their classifications of tire rolling noise, wet grip capacity, and rolling resistance. Our tires sold to all regions and countries are in compliance with applicable regulations.

As environmental regulations become more stringent (e.g., air pollution control act and water pollution charges), business operating costs increase accordingly. While focusing on our core business value and developing new products, we also dedicate our efforts to environmental protection and research of green products. We have made great strides in our product development with increasing technical cooperation with multiple raw material suppliers, including Degussa and ExxonMobil. With the evolving of times and technology, we have included "durability and fuel efficiency", "safety and comfort" and "low rolling resistance" as the main features of our products to reduce carbon emissions from vehicles.

In conclusion, Cheng Shin will continue to focus on the tire industry and to, based on our previous success, live out our corporate values, integrity and innovation, and carry on our mission to deliver customer satisfaction and high quality with full transparency. Together with enhanced organizational and technical capabilities, we are well-positioned to deliver continuous revenue and profit growth.

Sincerely yours,

Lo, Tsai-Jen Chairman

# II. Company Profile

- 2.1 Date of Incorporation
  - January 1, 1967
- 2.2 Company History

| Year | Milestones  |
|------|---|
| 1967 | The Company was established as a limited liability company with 178 employees and         |
|      | NT\$6,000,000 in capital, specializing in the production of motorcycle and bicycle tires. |
|      | All products were approved by the Bureau of Standards, Metrology and Inspection           |
|      | (BSMI) under the Ministry of Economic Affairs to use the CNS (E) symbol.                  |
| 1969 | The Company became a company limited by shares on December 19, and began the              |
|      | collaboration of technology and business with a Japanese corporation, Kyowa Ltd. The      |
|      | capital of the Company was increased to NT\$24,000,000, and the export business was       |
|      | expanded.   |
| 1971 | Our product quality was approved by the US Department of Transportation to use the        |
|      | DOT symbol. The Company also developed an excellent reputation in the overseas            |
|      | markets. Employees increased to 600.  |
| 1972 | Factory construction was completed at the current site at the time, and officially became |
|      | part of the production process. The sales of the products went from domestic-oriented     |
|      | to export-oriented.   |
| 1973 | The Company began planning and acquiring technical knowledge and adding                   |
|      | equipment to manufacture automobile tires.  |
| 1974 | The Company was awarded as the number one rubber exporter in the industry. The            |
|      | capital of the Company was increased to NT\$120,000,000. The Company began                |
|      | manufacturing and selling truck tires in June.  |
| 1975 | The Company implemented strict product quality control, and purchased the latest          |
|      | equipment for quality control. The office in Los Angeles, USA was set up. Employees       |
|      | increased to 1,200.   |
| 1976 | The Company, in accordance with new CNS standards, obtained further approval from         |
|      | BSMI to use the E symbol for the outer tires of large trucks, small trucks, transport     |
| 1077 | cars, agriculture vehicles, and motorcycles.  |
| 1977 | The Taipei office, responsible for export business, was established in the Taipei World   |
| 1000 | Trade Building. The capital of the Company was increased to NT\$220,000,000.              |
| 1980 | The factory was awarded a product quality A rating by the Ministry of Economic            |
|      | Affairs. The capital of the Company was increased to NT\$420,000,000, and employees       |
| 1001 | of the Company were increased to 2,200.   |
| 1981 | The Zhung Zhuang Plant was completed, which specializes in the production of high         |
| 1002 | quality bicycle tires. The capital of the Company increased to NT\$583,800,000.           |
| 1982 | The Company signed a technical cooperation agreement with Toyo Tire & Rubber Co.,         |

|      | Ltd., and established a factory for the latest radial tires for passenger cars. The capital |
|------|---|
|      | of the Company increased to NT\$720,000,000.  |
| 1983 | Total domestic and export sales reached NT\$2,708,000,000. The Company was                  |
|      | awarded number one in the tire industry in Taiwan. Full efforts were made to research       |
|      | and develop passenger car radial tires. The capital of the Company increased to             |
|      | NT\$828,000,000.  |
| 1984 | The Company was received the Japanese government's approval to sue the Japanese             |
|      | Industrial Standard Symbol for bicycle and motorcycle tires and tubes. The Company          |
|      | began producing and marketing passenger car radial tires and expanded its export            |
|      | market. The capital of the Company increased to NT\$910,800,000. The total domestic         |
|      | and export sales turnover was NT\$2,890,000,000.  |
| 1986 | Total domestic and export sales turnover of the Company reached NT\$3,770,000,000.          |
|      | The bicycle tire sales volume reached 20,000,000 pcs. The Company invested in new           |
|      | mixing machines in order to increase production.  |
| 1987 | The Xi Zhou Plant was built and scheduled to produce bicycle tires. The capital of the      |
|      | Company reached NT\$1,332,045,000. The Company and Toyo Rubber Co., Ltd.                    |
|      | established Yang Industrial Co., Ltd. jointly to co-produce shock proof rubber auto         |
|      | parts. The automobile tires and inner tubes, tires for industrial vehicles, and farming     |
|      | machinery manufactured by the Company received the Japanese Industrial Standards            |
|      | Symbol. The Company was listed on the Taiwan Stock Exchange on December 7.                  |
| 1988 | The Xi Zhou Plant officially began production of bicycle tires. The Company's Main          |
|      | Plant added radial tire production capacity. The capital of the Company increased to        |
|      | NT\$1,625,094,900. The Company and Kyowa Ltd jointly established a tire sales               |
|      | corporation in Osaka to expand output in Japan. The Company also invested in                |
|      | domestic Pacific Securities Co., Ltd. to diversify investment avenues.                      |
| 1989 | The Main Plant continued to expand facilities for the production of radial tire. The        |
|      | capital of the Company increased to NT\$2,031,368,630. The Company invested in the          |
|      | establishment of Cheng Shin Rubber (Hong Kong) Limited.                                     |
| 1990 | The Company's sales turnover exceeded NT\$5,100,000,000. The paid-in capital                |
|      | increased to NT\$2,437,640,000. The Company invested in the establishment of Cheng          |
| 1001 | Shin Rubber USA, Inc. and San Yueh Textile Company.   |
| 1991 | Cheng Shin Germany was established in March. On September 16, Cheng Shin                    |
|      | Germany relocated to the Netherlands and was renamed Cheng Shin Rubber (Europe)             |
|      | Ltd. in order to expand trades in Europe. The paid-in capital of the Company increased      |
|      | to NT\$2,632,653,750. On October 17, the Ministry of Economic Affairs approved that         |
|      | the Company may increase its capital by US\$20,000,000 through Cheng Shin Rubber            |
|      | Company (Hong Kong) Limited, and indirectly invest in the establishing of Xiamen            |
|      | Cheng Shin Rubber Industry Co., Ltd.  |

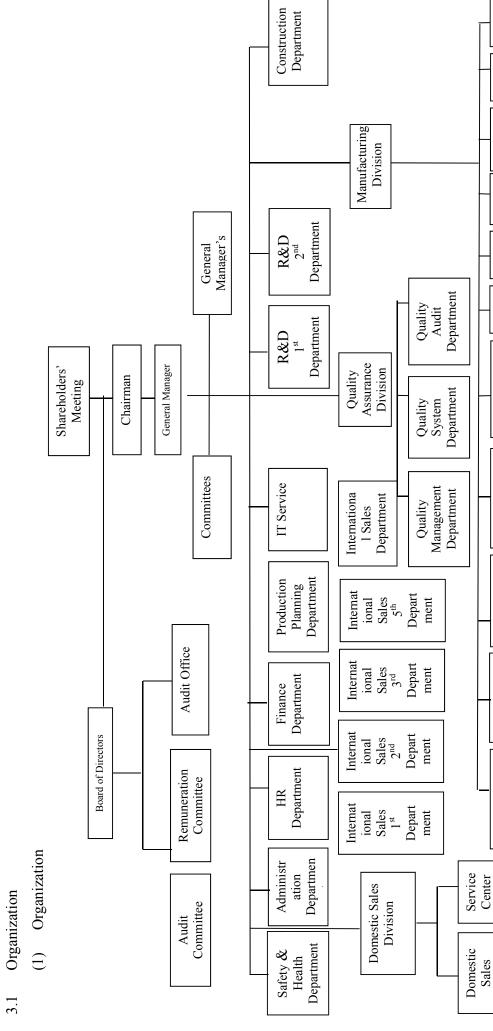

| 1992 | The sales turnover exceeded NT\$6,000,000. The paid-in capital of the Company           |
|------|---|
|      | increased to NT\$3,159,184,500. The Company was active in the production of radial      |
|      | tire expansion plan. General Manager Chen, Yun-Hwa came onboard on August 1. The        |
|      | business license of Cheng Shin Rubber (Europe) Limited was revoked.                     |
| 1993 | Paid-in capital increased to NT\$3,633,062,180. Automated storage was completed and     |
|      | in use in July. The radial tire expansion plan was completed and began testing and      |
|      | production. CST Trading Ltd. was approved by the Investment Commission and              |
|      | established in November to indirectly invest in mainland China to set up Cheng Shin     |
|      | Tire & Rubber (China) Co., Ltd. We received the international standard quality          |
|      | assurance system ISO 9001 certification in December as the first company in the tire    |
|      | industry to obtain this qualification in the Republic of China.                         |
| 1994 | Paid-in capital increased to NT\$4,214,352,130. In August, the Investment Commission    |
|      | approved the US\$15,000,000 investment in the capital increase of Cheng Shin Rubber     |
|      | (Xiamen) Ind. Ltd. The Ford F1 Quality Certification was awarded to the Company in      |
|      | November.   |
| 1995 | Paid-in capital increased to NT\$5,015,079,030. The Investment Commission approved      |
|      | the US\$30,000,000 investment for increasing equity capital of Cheng Shin Tire &        |
|      | Rubber (China) Co., Ltd in April.   |
| 1996 | Paid-in capital increased to NT\$5,515,079,000. In January, Toyo Tire & Rubber Co.,     |
|      | Ltd. invested in Cheng Shin Tire & Rubber (China) Co., Ltd., to enable capital increase |
|      | to US\$72,000,000, accounted for 30% of the equities. In August, the Investment         |
|      | Commission approved the US\$2,500,000 investment for the establishment of Cheng         |
|      | Shin-Toyo (Kunshan) Machinery Co., Ltd. with a capital of US\$5,000,000 which was       |
|      | jointly invested with Toyo Tire & Rubber Co., Ltd.; the Company's investment            |
|      | accounted for 50% of the equities. The second phase of Cheng Shin Rubber (Xiamen)       |
|      | Ind. Ltd. was completed and formally entered into production.                           |
| 1997 | Paid-in capital increased to NT\$6,068,245,620. On May 29. the QS9000 quality           |
|      | certification was obtained. The Cheng Shin Tire & Rubber (China) Co., Ltd. factory      |
|      | construction was completed and formally began production in July. Investment            |
|      | Commission approval was obtained in July to establish Maxxis International Co., Ltd.    |
|      | in the Cayman Islands to indirectly invest in Cheng Shin Rubber (Xiamen) Ind. Ltd.      |
| 1998 | Paid-in capital increased to NT\$6,796,435,090. In October, the Investment Commission   |
|      | approved an indirect investment via its subsidiary, MAXXIS International Co., Ltd. in   |
|      | Tianjin Tafeng Rubber Ind. Co., Ltd.; the capital of which is US\$12,000,000. On        |
|      | October 20, the Company's Xizhou Plant was awarded as a first class distinguished       |
|      | plant under Japan's Total Productive Maintenance (TPM).                                 |
| 1999 | Paid-in capital increased to NT\$747607860. In November, a US technology center was     |
|      | set up by the US subsidiary.  |
| l    |   |

| 2000 | Paid-in capital increased to NT\$7,849,882,530. The Company won the ROC National         |
|------|--|
|      | Quality Award in October. In November, the Company received the National Industrial      |
|      | Waste Reduction Award from the Industrial Development Bureau, Ministry of                |
|      | Economic Affairs. In December, the Company was awarded the group gold medal by           |
|      | the ROC Proposal Association.  |
| 2001 | Paid-in capital increased to NT\$8,360,124,890. The Xizhou Plant was awarded as the      |
|      | first class distinguished plant under Japan's Total Productive Maintenance (TPM).        |
| 2002 | The Investment Commission approved an indirect investment in the capital increase of     |
|      | Cheng Shin Tire & Rubber (China) Co., Ltd. in the amount of US\$20,000,000 via the       |
|      | Company's subsidiary; CST Trading Ltd. MAXXIS tires won the Forbes Magazine              |
|      | 2002 Global Award for enterprise excellence. The Company's capital increased to          |
|      | NT\$8,861,732,380. On November 1, the Investment Commission approved the                 |
|      | establishment of Cheng Shin Tire (Xiamen) Co., Ltd. through indirect investment, and     |
|      | on December 31, approved the investment in establishing a new company, Maxxis            |
|      | International (Thailand) Co., Ltd.   |
| 2003 | On March 6, Maxxis International (Thailand) Co., Ltd. officially started the             |
|      | construction of its plant. On September 23, the Company's MAXXIS brand was               |
|      | awarded by the Ministry of Economic Affairs and the international brand consultancy      |
|      | firm (INTERBRAND GROUP) as one of Taiwan's top twenty international brands,              |
|      | ranked fifth; the brand value was estimated at US\$256 million. In addition, the capital |
|      | of the Company increased to NT\$9,570,670,970 by the end of 2003.                        |
| 2004 | Cheng Shin Tire (Xiamen) Co., Ltd. and Maxxis International (Thailand) Co., Ltd.         |
|      | completed the constructions and entered into vehicle testing and trial production stage. |
|      | On October 4, the Company's MAXXIS brand won the 2004 Taiwan top twenty                  |
|      | international brands, which was ranked sixth with a brand value of US\$264 million.      |
|      | Furthermore, the Company's paid-in capital increased to NT\$10,489,455,380.              |
| 2005 | Maxxis International (Thailand) Co., Ltd. completed its first phase of all-round         |
|      | production, with daily production of 6,000 passenger car tires. Cheng Shin Tire          |
|      | (Xiamen) Co., Ltd.'s daily production was 700 all steel radial tires. The European       |
|      | technology center was established. The Company's MAXXIS brand continued to be in         |
|      | Taiwan's top twenty international brands in 2005, with a brand value of US\$264          |
|      | million. In addition, the Company's paid-in capital increased to NT\$11,381,059,080.     |
| 2006 | Taiwan Cheng Shin R&D center was completed and soon opened for operations.               |
|      | Maxxis International (Thailand) Co., Ltd. and the expansion of production capacity of    |
|      | Cheng Shin Tire (Xiamen) Co., Ltd. were completed. Cheng Shin Rubber (Vietnam)           |
|      | Ind. Co., Ltd. began construction. The MAXXIS brand was once again awarded as            |
|      | Taiwan's Top Twenty International Brand in 2006, with a brand value of US\$271           |
|      | million. The company's paid-in capital increased to NT\$12,177,733,220.                  |
|      |  |

| 2007 | The first phase of construction of Cheng Shin Rubber (Vietnam) Ind. Co., Ltd.'s factory was completed, and started trial production in March, which was projected to formally begin production in August. XiaMen Cheng Shin Enterprise Co., Ltd. began production in January. Note Please tick the corresponding boxes that apply to the directors or supervisors during 1: the two years prior to being elected or during the term of office.

- (1) Not an employee of the Company or any of its affiliates.
- (2) Not a director or supervisor of the Company's affiliates. Not applicable in cases where the person is an independent director of the Company's parent company or any subsidiary appointed in accordance with the Regulations Governing the Appointment of Independent Directors and Compliance Matters for Public Companies or other local laws and regulations.
- (3) Not a natural-person shareholder who holds shares, together with those held by the person's spouse, minor children, or held by the person under others' names, in an aggregate amount of 1% or more of the total number of outstanding shares of the Company or ranking in the top 10 in holdings.
- (4) Not a spouse, relative within the second degree of kinship, or lineal relative within

the third degree of kinship, of any of the persons in the preceding three subparagraphs.

- (5) Not a director, supervisor, or employee of a corporate shareholder who directly holds 5% or more of the total number of outstanding shares of the Company or who holds shares ranking in the top five holdings.
- (6) Not a director, supervisor, officer, or shareholder holding 5% or more of the shares, of a specified company or institution which has a financial or business relationship with the Company.
- (7) Not a professional individual who is an owner, partner, director, supervisor, or officer of a sole proprietorship, partnership, company, or institution that provides commercial, legal, financial, accounting services or consultation to the Company or to any affiliate of the Company, or a spouse thereof. These restrictions do not apply to any member of the remuneration committee who exercises powers pursuant to Article 7 of the Regulations Governing the Establishment and Exercise of Powers of Remuneration Committees of Companies whose Stock is Listed on the TWSE or Traded on the TPEx.
- (8) Not having a marital relationship, or a relative within the second degree of kinship to any other director of the Company.
- (9) Not been a person of any conditions defined in Article 30 of the Company Act.
- (10) Not a governmental, juridical person or its representative as defined in Article 27 of the Company Act.
- Note If the Company's independent director or independent supervisor is concurrently
- 2: serving as an independent director or independent supervisor of another company, they shall explain their positions in the other companies.

| Senior Manager           | Hu, Ming-Te        |                                 |                                |       |  |
| Senior Manager           | Ting, Tso-Lin      |                                 |                                |       |  |
| Chief Financial Officer  | Lo, Yung-Li        |                                 |                                |       |  |
| Chief Accounting Officer | Chang, Ya-Ching    |                                 |                                |       |  |

Note 1: Deputy General Manager Lo, Yung-Li and Senior Manager Ting, Tso-Lin came onboard on September 1, 2018.

- (6) Remuneration paid by the Company and by all companies included in the consolidated financial statements to Directors, General Managers and Deputy General Managers in the Most Recent Two Fiscal Years to after-tax net profit ratio; and Remuneration Policy, Standards, Portfolios for The Payment of The Remuneration, and Procedure for Determining Remuneration, and their Connection with Business Performance and Future Risks.
  - 1.Total remuneration of directors, general managers and deputy general managers of the Company to after-tax net income ratio.

Unit: in NT\$1000; %

| Year/Item                                 | Net income | Total remuneration of Directors,<br>General Managers and Deputy<br>General Managers to net profit<br>after tax ratio |
|---|------------|--|
| 2018 the Company                          | 3,520,320  | 4.53%  |
| 2018 consolidated financial statements    | 3,574,638  | 4.46%  |
| 2017 the Company                          | 5,541,785  | 3.62%  |
| 2017 consolidated<br>financial statements | 5,602,025  | 3.58%  |

2. The policies, standards and portfolios for the payment of remuneration, the procedures for determining remuneration, and their connection with business performance and future risks.

The compensation policy and payment were determined by the Remuneration Committee of the Company in accordance with the market average of each position, and the duties and responsibilities of such position, as well as personal contribution to the Company's operation target. Besides taking overall operating performance of the Company into consideration, personal achievements and contributions made to business operations are also evaluated during the remuneration determination process. The board of directors would then approve the remuneration that is fair and reasonable.

## 3.3 Implementation of Corporate Governance

### (1) Board of Directors

(2) Except as otherwise disclosed above, any other resolutions of the board of directors' meetings to which an independent director has expressed objection or reservation and recorded or declared in writing: None.

- 2. If there were directors who abstained from voting due to conflict of interest, the directors' names, summary of the proposal, and causes of abstention should be specified: None.
- 3. Measures taken to strengthen the functionality of the Board in the current and the latest year (e.g. establishing the Audit Committee, enhancing information transparency), and implementation status:
  - (1) The Company has independent directors on the Board and an audit committee in place, and holds Board meetings and Audit Committee meetings on a regular basis. We also invite accountants/auditors to sit in on the Board meetings to help the directors have a better understanding of the global market, industry trend, and financial, accounting and tax regulations, thereby benefiting the management and operations of the Company.
  - (2) The Company has amended the Company's Rules for Election of Directors, Rules and Procedures for Board Meetings, and adopted corporate governance rules, which are made available on the corporate website and on the Market Observation Post System (MOPS).
  - (3) The Company discloses information in respect of directors' continuing education, Board meeting attendance, and remuneration of directors on MOPS .
  - (4) The Company posts important matters resolved by the board of directors, Board attendance, and director profiles (including independent directors) on the corporate website.
- Note 1: The names of a corporate shareholder and its representative shall be disclosed if the director or supervisor is a juristic person.

Note 2:

- (1) If a director or supervisor resigns before the end of the accounting year, the resignation date shall be noted in the "Remarks" column. His or her attendance rate (%) will be calculated on the basis of number of board meetings held during his or her tenure and number of such meetings attended.
- (2) If a director or supervisor is re-elected before the end of the accounting year, the names of the current and previous director or supervisor shall be listed and their appointment status and re-election date shall be noted in the "Remarks" column. His or her attendance rate (%) will be calculated on the basis of number of board meetings held during his or her tenure and number of such meetings attended.

2. The target of the Board of Director's functionality

The Company shall diversify Board composition and develop guidelines on diversity based on the operations, nature of business activities and development needs of the Company, including but not limited to the following two aspects:

- > Basic qualification and value: gender, age, nationality and culture.
- Professional knowledge and skills: professional backgrounds (such as law, accounting, industry-specific, finance, marketing or technology), professional skills and working experience in the industry.

The directors should generally have the knowledge, skills and self-cultivation required for performing their duties. In order to achieve the ideal targets of corporate governance, the general abilities that the board of directors should be equipped with are stated below:

- Capability to make sound business judgments
- Accounting and financial analysis capabilities
- Capability of operations management (including the management of subsidiaries)
- Crisis management capability
- Industry knowledge
- Global market viewpoint
- Leadership skills
- Capability to make decisions

### (2) Audit committee

# A total of 5 (A) meetings of the Audit Committee were held in 2018 (as of December 31, 2018). The attendance of independent directors was as follows:

| Title                   | Name            | Attendance in<br>Person (B) | By Proxy | Attendance Rate (%)<br>[B/A] (Note) | Remarks |
|-------------------------|-----------------|-----------------------------|----------|-------------------------------------|---------|
| Independent<br>Director | Hsu, En-De      | 4                           | 1        | 80%                                 | N/A     |

Note 1: Please respectively specify whether the title is Director, Independent Director or Other.

- Note 2: If a member meets any of the following conditions during the two years prior to being elected or during the term(s) of office, please tick the corresponding boxes that apply.
  - (1) Not an employee of the Company or any of its affiliates.
  - (2) Not a director or supervisor of the Company or any of its affiliated companies. Not applicable in cases where the person is an independent director of the Company, its parent company or subsidiary appointed according to the Regulations Governing the Appointment of Independent Directors and Compliance Matters for Public Companies or local laws and regulations.
  - (3) Not a natural-person shareholder who holds shares, together with those held by the person's spouse,

children (minors), or held by the person under others' names, in an aggregate amount of 1% or more of the total number of outstanding shares of the Company, or ranking in the top 10 in holdings.

- (4) Not a spouse, relative within the second degree of kinship, or lineal relative within the third degree of kinship, of any of the persons in the preceding three sub-paragraphs.
- (5) Not a director, supervisor, or employee of a corporate shareholder who directly holds 5% or more of the total number of outstanding shares of the Company, or who holds shares ranking in the top five holdings.
- (6) Not a director, supervisor, officer, or shareholder holding 5% or more of the shares of a specified company or institution which has a financial or business relationship with the Company.
- (7) Not a professional individual nor an owner, partner, director, supervisor, or officer of a sole proprietorship, partnership, company, or institution that provides commercial, legal, financial, accounting services or consultation to the Company or to any affiliate of the Company, or a spouse thereof.

(8) Not a person of any conditions defined in Article 30 of the Company Act.

- Note If the member's title is a director, please explain if Article 6, Paragraph 5 of "Regulations
- 3: Governing the Appointment and Exercise of Powers by the Remuneration Committee of a Company Whose Stock is Listed on the Stock Exchange or Traded Over the Counter" is complied with.

#### 3. Operation Status of the Remuneration Committee

The tenure of the current remuneration committee members is from August 10, 2017 to June 14, 2020. A total of 4 (A) Remuneration Committee meetings were held in 2018. The titles and attendance record of the Remuneration Committee members were as follows:

| Title               | Name                | Attendance<br>in Person<br>(B) | By<br>Proxy | Attendance<br>Rate (%)<br>【B/A】<br>(Note) | Remarks |

| Implementation Status                              | Summary   | evaluation results in order to inspire employees to grow along with the Company.  | (1) Since a tire's fuel efficiency is highly relevant to our environment, we use<br>light-weight designs and implement material simplification to reduce the<br>weight of tires and the amount of semi-finished materials when developing<br>new products. These design methods not only enhance the fuel-efficiency<br>of tires, but are also highly effective in reducing the waste produced during<br>the manufacturing process. In light of these benefits, we have been<br>promoting low rolling resistance tires and increasing production efficiency<br>in our product development, thereby making contribution to environmental<br>sustainability. The materials we use fully comply with EU regulations and<br>the requirements of major car assembly factories on environmental<br>protection, and all of our manufacturers are required to submit third-party<br>testing reports from REACH and ROHS. In addition, we only use<br>eco-friendly process oils with reduced aromatic hydrocarbons, and any raw<br>material (e.g., process oil, synthetic rubber) used in the production process<br>should be accompanied by a third-party-issued PAHs testing report. | (2) The Company received ISO-14001: 2015 Environmental Management System Conversion Certification at the end of 2017. Through actions, we meet the expectations and demands of our stakeholders. Energy saving, recycling, operating safety and pollution prevention are the Company's core principles. The Company also promotes the 5S management activities comprehensively and regularly examines the environmental performance of each department. The Health and Safety Department is responsible for |

- (11) Disclosure matters of the status of Internal Control
  - 1. Internal Control Statement

Cheng Shin Rubber Ind. Co., Ltd. Statement of Internal Control

March 21, 2019

Based on the self-evaluation of Cheng Shin Rubber Ind. Co., Ltd. (the "Company")'s internal control system as of December 31, 2018, we hereby state that:

- The Company understands that the Board and management of the Company are 1. responsible for establishing, implementing and maintaining adequate internal control. The Company has established an effective internal control system which aims to reasonably assure the operational results and effectiveness (including profitability, performance and assets security, etc.), the reliability, timeliness and transparency of its report and the compliance with applicable laws and regulations.
- Due to its inherent limitations, an effective internal control system can only reasonably 2. ensure the achievement of the three objectives above, no matter how complete and perfect the design of the system is. Besides, the effectiveness of the internal control system may vary due to changes in the environment or conditions. However, the Company has set up a self-monitoring mechanism on the internal control system, which allows the Company to take corrective actions as soon as any error or inadequacy is identified.
- The Company has assessed the design and operating effectiveness of the internal control 3. system in accordance with the criteria effectiveness assessment of internal control system, listed in the Framework for the Establishment of Internal Control System by Public Companies (the "Framework"). The criteria listed in the Framework divides the internal control system into five components based on management control process. The five components are i) Control environment, ii) Risk assessment, iii) Control activities, iv) Information and communication, and v) Monitoring. Each component comprises of several elements. For more information, please refer to the Framework.
- We have assessed the design and operating effectiveness of the Company's internal 4. control system based on the criteria listed in the Framework.
- 5. Based on the assessment mentioned above, we conclude that the Company maintains an effective design and operation of its internal control system (including supervisory and management of subsidiaries) as of December 31, 2018, which provides reasonable assurance regarding the achievement of the following objectives: understanding the effectiveness and efficiency of operations and the status of goal achievement, reliability, timeliness and transparency of reporting, and compliance with applicable laws and regulations.
- This statement will be included as an integral part of the Annual Report and the 6. prospectus of the Company and be disclosed to the public. Any false or fraudulent representations and concealment of information in this statement shall be subject to the legal liabilities prescribed by Article 20, Article 32, Article 171 and Article 174 of the Securities and Exchange Act.
- This statement has been unanimously approved by the Board of Directors on March 21, 7. 2019, with 11 directors present a a grade and

Cheng Shin Rubber Ind. Co., Ltd.

Lo, Tsai-Jen Chairman

Lo, Tsai-Jen General Manager

- 2. A separate audit report shall be disclosed where an independent registered public accounting firm has reviewed the Company's internal control system: N/A
- (12) Sanctions imposed on the Company or its personnel in accordance with the laws, or disciplinary actions taken by the Company against its personnel for any violation of internal control rules within the current fiscal year and as at the date of the Annual Report, as well as details of the sanctions, major deficiencies and subsequent improvements: None.

(13) Major Resolutions of Shareholders' Meeting and Board Meetings within the current fiscal year and as at the date of the Annual Report

Note 1: List the highest and lowest market price in each fiscal year and calculate the average market price based on the trading value and volume.

Note 2: Please fill out the figures according to the number of outstanding shares at the end of the fiscal year and the resolution regarding distribution by the shareholders' meeting the following year.

- Note 3: Please fill out basic and diluted earnings per share if retroactive adjustment is necessary due to stock dividend payout.
- Note 4: If the terms of issuance of the equity securities provide that any dividends declared but not paid may be carried forward until the Company has earnings, the amount of accrued unpaid dividends as at the end of such fiscal year shall be disclosed.
- Note 5: P/E Ratio = Average Market Price per Share / Earnings per Share
- Note 6: Price/Dividend Ratio = Average Market Price per Share / Cash Dividend per Share
- Note 7: Cash Dividend Yield = Cash Dividend per Share / Average Market Price per Share
- Note 8: The distribution of earnings this year has not been approved by the annual general meeting of the shareholders.

(6) Dividend Policy and Implementation

Our dividend policy is as follows:

1.If the Company has pre-tax earnings for the fiscal year after the accounts are closed, after setting aside an amount to pay any business income tax due, the Company shall first offset the losses of previous year(s) and then set aside ten percent (10%) of the residual amount as the legal reserve, and shall, in accordance with applicable laws and regulations, set aside a portion of the after-tax earnings for its special reserve. To the extent that there is any balance of the Company's after-tax earnings remaining, the total earnings available for distribution shall consist of the remainder of such balance and the retained earnings from the previous year(s). The board of directors may propose a profit distribution plan for approval at the shareholders' meeting.

The shareholder dividends declared under such a plan shall be ten to eighty percent (10-80%) of the total distributable earnings, from which the cash dividends shall be ten percent (10%) or more of the total dividends declared.

2. Proposed Dividend Payment by the Shareholders' Meeting

After the appropriation of legal reserve, the total after-tax earnings of the Company available for distribution, which includes retained earnings carried forward from previous year(s), was NT\$31,540,074,908 in the 2018 Fiscal Year. It is proposed that NT\$3,565,557,090 of cash dividends be paid to the shareholders (at NT\$1.1 per share) in accordance with the Articles of Incorporation of the Company.

(7) Impact of the proposed stock dividend payment by the shareholders' meeting on the business performance and earnings per share of the Company

The Company did not declare any stock dividend, and therefore no impact was expected on the business performance and earnings per share of the Company.

(8) Employee Bonus and Director Remuneration

1.Percentage or Range of Employee Remuneration and Director Remuneration under the Articles of Incorporation

To the extent that there is any balance of the Company's after-tax earnings remaining, an amount no less than two percent (2%) of such balance shall be paid out as employee bonus and no more than three percent (3%) of such balance shall be paid out as director remuneration, provided that, however, the Company shall first offset the cumulative losses, if any.

Employee bonus shall be paid in the form of stocks or cash, and director and supervisor remuneration shall be paid in the form of cash. The payout shall be approved by more than one half of the directors present at the Board meeting attended by at least two-thirds of all directors, and shall be reported at the shareholders' meeting.

Individuals eligible to receive stock or cash bonus in the preceding paragraph

include employees of the Company's subsidiaries who meet certain criteria, which shall be discussed and decided by the Board of Directors.

2. The Basis of the Estimate of Employee Bonus and Director Remuneration, the Basis of Calculating Number of Shares where Stock Bonuses are Paid, as well as Accounting Treatment in Case of Deviation between the Amount of Actual Payment and the Estimate:

The deviation will be recognized as profit or loss in the following fiscal year.

- 3. Distribution of Employee Bonus Recommended by the Board
  - (a) The amount of employee cash bonus and director remuneration. In the event that the amount of the actual payment of employee cash bonus and director and supervisor remuneration deviates from the estimate in the fiscal year where such payment is recognized as an expense, the difference of the value as well as reason for deviation and accounting treatment shall be disclosed.

The Company has allocated NT\$101,254,000 as employee cash bonus and NT\$74,978,000 as director remuneration in 2018. Comparing the revenues and profitability of the Company in 2018 to those in 2017 and taking into account the amount of payout in 2017, the proposal was reviewed by the Remuneration Committee and the Board has passed a resolution and recommends that NT\$101,254,000 to be paid out as employee cash bonus and NT\$66,473,000 as director remuneration. Deviation between the estimate and actual payment amount will be recognized as profit (loss) in the 2019 Fiscal Year.

(b) Proposed employee stock bonus in percentage of after-tax earnings and total employee bonus in Fiscal Year 2018:

The Company's 2018 profit distribution plan has been approved by the Board of Directors and no employee stock bonus was declared.

(c) The estimated earnings per share is NT\$1.09 after the employee bonus and director remuneration are paid out.

4.Employee Remuneration and Director and Supervisor Remuneration in the 2017 Fiscal Year

| Items                                | Approved<br>Distribution (NT\$) | Deviation | Reason for Deviation |
|--------------------------------------|---------------------------------|-----------|----------------------|
| Employee remuneration                | 145,330,295                     | _         | N/A                  |
| Director and supervisor remuneration | 107,617,083                     | _         | N/A                  |

The following summarizes the employee remuneration and director and supervisor remuneration in the 2016 Fiscal Year:

Note: The Board of Directors of the Company is authorized to determine the remuneration of the directors based on director remuneration of comparable companies in the industry; provided, however, independent directors may not participate in the distribution of remuneration set forth in Article 36 of the Articles of Incorporation of the Company.

(9) Repurchase of the Company's shares: None

### V. Operational Overview

- 5.1 Business Activities
  - (1) Business Scope

1.Principal Businesses Activities

- > C801990 Other Chemical Materials Manufacturing.
- ► C802160 Sticky Tape Manufacturing.
- ➢ C804010 Tires Manufacturing.
- > C804020 Industrial Rubber Products Manufacturing.
- C804990 Other Rubber Products Manufacturing.
- > CB01010 Machinery and Equipment Manufacturing.
- ► F112040 Wholesale of Petrochemical Fuel Products.
- ▶ F212050 Retail Sale of Petrochemical Fuel Products.
- ► F401010 International Trade.
- ZZ99999 All business items that are not prohibited or restricted by law, except those that are subject to special approval.
- 2. Revenues by Product Category

The revenues from the Company's major products are as follows:

#### in NT\$1000

| Major Products  | 2018        |        |  |
|---|-------------|--------|--|
|   | Revenues    | %      |  |
| PCR   | 49,036,793  | 44.90% |  |
| TBR   | 24,048,643  | 22.02% |  |
| МС  | 11,872,087  | 10.87% |  |
| BC  | 8,718,418   | 7.98%  |  |
| TUBE  | 4,806,817   | 4.40%  |  |
| Other tires   | 12,474,769  | 11.42% |  |
| Other products  | 890,374     | 0.81%  |  |
| Return, allowance, freight and insurance costs and others | -2,626,692  | -2.40% |  |
| Total   | 109,221,209 | 100%   |  |

3. The Company's Current Products: PCR, TBR, MC, BC, TUBE and other tires.

- 4.New Products in Development
  - Product development of MAXXIS innovative PCR/LTR
  - > Technology research project of various energy-efficient tires
  - > Product development of automobile spare tires
  - Product development of High Performance motorcycle tires
  - Product development of radial motorcycles
  - Product development of High Performance bike tires
  - Product development of innovative ATVs
  - Product development of new generation of bus series
  - Product development of new generation of drive shaft series
- (2) Industry Overview

1.Industry Situation and Development

With the domestic rapid economic development and the continuous development and innovation of this industry, tire businesses are also flourishing, which improves the industrial technology for higher level tires. The Company's main products are the cover tires for automobiles and motorcycles. Due to the small market and limited road areas in Taiwan, as well as increasing importation after Taiwan's participation in the WTO, which makes marketing and sales of tires even more difficult because Taiwan's domestic market is already saturate. In view of this, the Company will be dedicated to the development of tires with high performance, lightweight, low rolling resistance, safety and intelligence, so that the Company will be able to develop its market by continuously providing more leading products.

2.Relationship Among the Supply Chain

After developing for decades, the rubber industry in Taiwan has formed a complete supply chain with upstream, midstream and downstream, which is as follows:

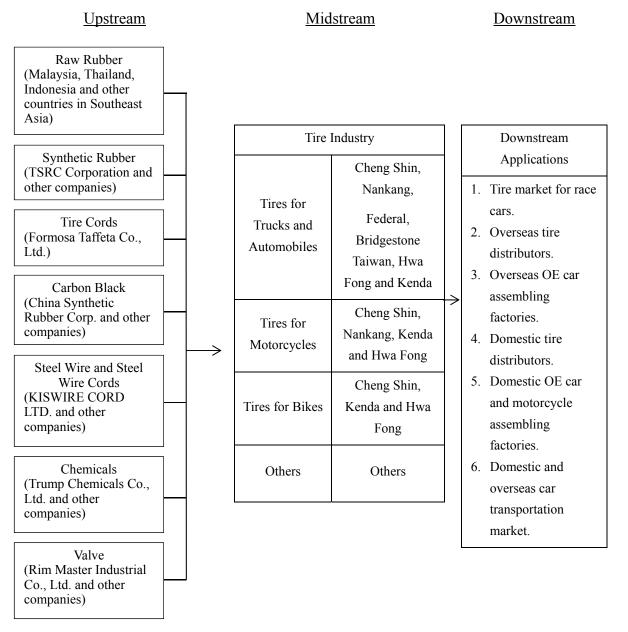

Upstream: capital-intensive raw material industry.

Midstream: technology-intensive processing industry.

Downstream: consisting of the applications in tire market for race cars, domestic and overseas OE car assembling factories, domestic and overseas tire distributors and car transportation market.

The diagram for upstream, midstream and downstream is as follows:

### Diagram of Relationship Among Tire Industry in Taiwan

3.Information of The Development Trends And Competition of Products:

For the entire market of tire products, the traditional cross-ply tires have been replaced gradually by the radial tires and the main reason is that the radial tires are able to reduce the possibility of flat tires and would provide the effects of oil saving, abrasion resistance and driving safety. Also, the development trend of tire products is low aspect ratio and high performance tires. Due to market needs and higher consumers' needs for environmental quality, the Company plans to manufacture and provide high performance tires, low rolling resistance tires, safety tires, intelligent tires, steel wire radial tires and other new products. The Company would like to enhance its development power by improving its technology and increasing product diversity and would also like to develop and dominate the market by continuously expanding leading products.

- (3) Overview on Technology, Research and Development
  - 1.Costs of Research and Development During the Current Fiscal Year and as of the Date of the Annual Report

in NT\$1000

| Year                                 | 2018        | As of March 31, 2019 |
|--------------------------------------|-------------|----------------------|
| Costs of Research and<br>Development | 5,329,277   | 1,287,721            |
| Net Operation Income                 | 109,221,209 | 26,800,257           |
| Percentage                           | 4.88%       | 4.80%                |

Note: Above information is from the Company's consolidated financial statement.

2. Technology and Products Successfully Developed

- > Product development of light automobile spare tires
- Product development of motorcycle race tires
- > Technology research of high wind pressure bike tires
- Product development project of tires for other vehicles
- > Technology research project and product development of TBR
- > Technology research project of various energy saving tires
- Product development of new MAXXIS PCR
- (4) Long Term and Short Term Business Development Plan

1.Short Term Business Development Plan

- (a) Conducting business on the current business basis, continuously developing products for all series and developing sales models which are suitable to different local markets.
- (b) Carrying out a reasonable and flexible production procedure in order to reach the most proper operational business scale between production and sale; carrying out quality management in all aspects and striving for the goal of best quality.

2.Long Term Business Development Plan

- (a) Continuously enhancing quality and developing private brands and increasing market share in order to establish globally complete distribution channels and brand management strategy.
- (b) Continuously conducting research and development activities, maintaining the market leading position of manufacture technology and fully taking advantage of economies of scale for mass production.

### 5.2 Market and Sales Overview

(1) Market Analysis

1. Analysis of Overseas Market

- (a) Distribution Regions: market analysis is made based on our distribution regions—North America, Central and South America, Europe, Middle East and Africa, Asia, and Oceania.
- (b) Market Shares: Our revenue has remained at the top in Taiwan and we are the largest tire manufacturer in the Chinese-speaking region. Both of the world-renowned tire magazines, Tyres & Accessories and Tire Business, reported us as the 9<sup>th</sup> largest global tire manufacturer.
- (c) Future Market Supply and Demand and Prospect

Cheng Shin's unceasing efforts in new product development have enabled us to continue as the No.1 brand in the China tire market with recognition. In 2016, our HP5 tires were ranked 3<sup>rd</sup> in a European Magazine tire test, ahead of several major global tire brands, and were ranked No.1 in the comprehensive performance assessment in an Australian Magazine tire test. We have been adding new specifications to the RFTs (Run Flat Tires), which are sold to more than 30 countries from our facilities in China. Our MS1 tires featuring comfort not only won 2017 China Tire of the Year but also surpassed those from several well-known manufacturers in the field test. Our high performance VS5 tires greatly expected by the market were highly acclaimed in the public field test in Spain and excelled those from the leading brands on the market in each performance assessment. The products provided by Cheng Shin demonstrate the upgrade of quality as well as the world-class standard in performance.

Cheng Shin has long been proactively sponsoring various sports and race car events globally. In 2019, it will even act as the official tire supplier of the MXGP FIM Motocross World Championship held by the FIM (International world Federation) and this cooperation will greatly benefit Maxxis' brand reputation in the world and elevate Maxxis' professionalism and excellent quality in the consumers' understanding. In the 2019 Dakar Rally, Maxxis' ATV tire, M8060, will be used by the world-class contestants with the goal to excel at this international event. In 2018, Maxxis' drift tire, VR-1, contributed to the ultimate success of the DRS team at the China Drift Championship (CDC).

The Company has also dedicated itself to developing better products. AT700 won the first place together with other competitors for its fantastic performance in the Australian 4X4 magazine evaluation contest. The summer tire, HP5, took the third place with its great performance after the evaluation was conducted by AUTO ZEITUNG, a German auto magazine.

We have also made some breakthroughs in the development of our overseas market. Toyota's best-selling model Corolla Altis manufactured in Taiwan features Cheng Shin MAXXIS tires. These cars have been distributed to the Middle East regions and received recognition from local car owners. As the automotive industry in India is viewed as a potentially lucrative market, we continue to supply our Cheng Shin MAXXIS tires to the top three automotive factories in India, TATA, Maruti Suzuki and Mahindra & Mahindra for their car models, with an aim to enhance brand image and boost presence. While continuing to supply spare tires for Toyota vehicles assembled in North America, we have also successfully completed our spare tire development project for some of the best-selling car models of Subaru, becoming part of Subaru's supply chain in North America. In Mexico, several best-selling Nissan car models are equipped with Cheng Shin MAXXIS tires as well.

We have sold our products in over 180 countries worldwide. In addition to our strategic mapping of the overseas repairs market, we actively expand our distribution channels and locations. With the rapid growth of emerging markets and sustained economy recovery in the North America region, the global automotive industry is thriving and the demands for vehicle tires are boosting. Since the financial crisis, the automotive industry has been growing at a steady pace, further fueling the strong demands in certain markets, such as China, Brazil, India, Mexico, and the Middle East. As a result, major tire manufacturers around the world continue to invest in building new facilities to meet the anticipated demands in these markets.

With respect to our global strategy, we have offices set up in Dubai, Japan, Panama, etc. and we plan to assign staff to countries including Mexico and Saudi Arabia to strengthen development of local markets and enhance customer satisfaction. Our existing offices in other countries have proven to be beneficial to the local market development.

The participation in production of factories in Douliou Taiwan, Chongqing and Xiamen Jimei in China has made Cheng Shin's global presence more integrated and the Group's global allocation of sales and internal resources more efficient. The internationally regulated trial-run facility in Shanghai is by far the most comprehensive tire test facility in Asia, which highlighted Cheng Shin's efforts to stand out in the industry. With regard to our comprehensive plan in Asia, our factory in India, which started manufacturing in August 2017, mainly aims at India's sales volume of 18 million motorcycles per year. Its production directly supplies motorcycle tires to assembly factories and will then explore India's automobile and truck tire market. Our factory in India produces 6 million motorcycle tires annually at the first phase. After the expansion completed at the third phase, the annual production volume will increase to 18 million tires. Moreover, in 2018 the tires have been sold at more than 1000 retailers, making it a great milestone. In Indonesia, since the commencement of the building of manufacturing facilities in 2016, we have been sending employees from different departments to be stationed at the factories to provide support. Our sales team has also been in close contact with local distribution networks to ensure smooth launching upon the completion of construction. The Indonesia facilities have successfully begun production in October 2017. At present, the maximum annual production volume is expected to reach 6 million tires and will go up to 12 million tires in the future. This mainly aims at the growth of ASEAN regional market. Our strategy to focus on markets in India and Indonesian is expected to boost the future growth of our Group. Going forward, we will continue to recruit local technicians and sales force in India and Indonesia to increase the brand's local exposure and support customer services with an aim to demonstrate our 100% service quality.

(d) Competitive Edge

Our core beliefs are deeply rooted in every member of the Maxxis Family. Under the leadership of our Chairman, Lo Tsai Ren, we have established the four primary systems-Enterprise Resource Planning System (ERP), Manufacturing Execution System (MES), Product Management Lifecycle (PLM), and Customer Relationship Management (CRM), which will be introduced progressively to each manufacturing facility of Cheng Shin. Through the integration of Group resources, we are able to expand existing production capacity and manufacturing facilities to enhance our strategic, organizational, and technological capabilities. With these upgrades, we are confident in our ability to deliver continued revenue growth and attain our presence in the global tire industry.

Our new brand "PRESA" introduced through a differentiated distribution network from MAXXIS has secured a leading position in the market and continues to gain market share. We also introduced different products under the PRESA brand, such as LTR and TBR, to cater to market demands.

In 2018, Cheng Shin is recognized as one of the Top 10 Global Brands in Taiwan for the 16th consecutive year, an honor sponsored by the Bureau of Foreign Trade of the Ministry of Economic Affairs, Taiwan External Trade Development Council and Interbrand, a global brand consultancy. MAXXIS's brand value is estimated to be USD 299 million. Cheng Shin adopts a global diversified brand-name strategy for its Cheng Shin, MAXXIS and PRESA brand names with respect different cultures. Marketed with English brand names to and incorporate elements of the western cultures to cater to western consumers. Not only has Cheng Shin been widely known as tire brands in the Greater China region, but it also has been recognized as the best-selling brand under a well-known trademark in China. We aim to raise the brand name recognition in the market in the future by participating in auto shows in Taiwan and overseas routinely, and sponsor major sports events to grow consumers' appreciation of our brand names with a diversified strategy.

To strengthen the competitive edges of our products and develop the most adequate products, besides the research and development centers in the US and the Netherlands Cheng Shin set up in the early years, Cheng Shin officially launched the second-phased R&D building in Shanghai in 2017. In addition, the strategy of recruiting talents is reinforced by gathering world-class professionals to develop global products and elevate the group's overall competitiveness.

Cheng Shin has made significant improvements to its products by strengthening technical alignment with raw material suppliers such as Degussa and Exxon. We seek to strike an ideal mechanical balance between treads and structure to the tire with the unique and innovative VIP (Virtual Intelligence Prototyping)/automated intelligent prototype design technique and renovate tire design techniques. Multiple research papers has been published in internationally renowned journals such as International Journal of Vehicle Design (UK) and International Journal of Materials and Product Technology (USA).

(e) Advantages and Disadvantages for Developmental and Action Plans

### <u>Advantages</u>

With joint efforts of our factory building staff, our facilities in Indonesia and India began production in 2017.

The additional production capacity will help us cater to the rising tire demand and increase Cheng Shin's market share. Under the CEPT (Common Effective Preferential Tariff) Scheme of ASEAN, regional growth strengthened. The geographic advantages of our facilities in Indonesia, Thailand and Vietnam readily support the demand of the emerging markets and enable us to provide more competitive products to the consumers manufacturing locally. With collaborations with global automakers, we have made significant progress in promoting our tires for some of the best-selling car models around the world. Recently, we have successfully entered the supply chain of General Motors and Nissan in Mexico. Evidenced steps taken by Cheng Shin towards increasing the product exposure and market share in new markets.

Amid in global consumption contraction tendency, consumers are becoming more price-sensitive purchasing replacement tires. Compared with main strain tire manufacturers in Europe, America and Japan, Cheng Shin maintains a leading position in the market by providing more competitive products with outstanding quality and affordable prices, creating a great opportunity for us to gain market share.

#### Disadvantages

Cheng Shin is facing competition challenges from the second movers, including Chinese tire manufactures' establishment in the US. With such challenges, we launched plans of delivery strategies for global automobile manufacturers. Based on our delivery experiences, we hope to form business relationships with more major automobile brands and raise our group's scale and sales volume.

As the volume of procurement was affected by volatile currency fluctuation due to political instability in certain emerging markets, and that some tire manufacturers begin to build factories and expand their production capacity to join the local supply chain, posing a challenge to our competitiveness. Further with the fluctuation of raw material prices in 2018, impacted Cheng Shin's planning in the tire industry.

We monitor the fluctuation in market demand closely and adjust prices when deemed appropriate. We share market intelligence with regional distributors proactively to replace less competitive products with capacity-efficient mass productions having higher added values to adapt the increasing market demands and ever changing competitive environment.

We anticipate more drastic changes to come in the upcoming three to five years, we must swiftly enhance our adaptability, ability and competitiveness. Only when we grasp the world-class ability and competitiveness will we be able to adapt to the complicated and ever-changing market. Thus, we will build our ability with technology, operation and sales, productivity, and management in the future.

Achieving globalization and strengthen the sales and technology support of each region, so that our global headquarters and business units of different regions can closely cooperate with each other, and further enhance the connection to the region with localization of manufacturing.

#### 2. Analysis of Domestic Market

(a) 2018 Domestic Market Overview

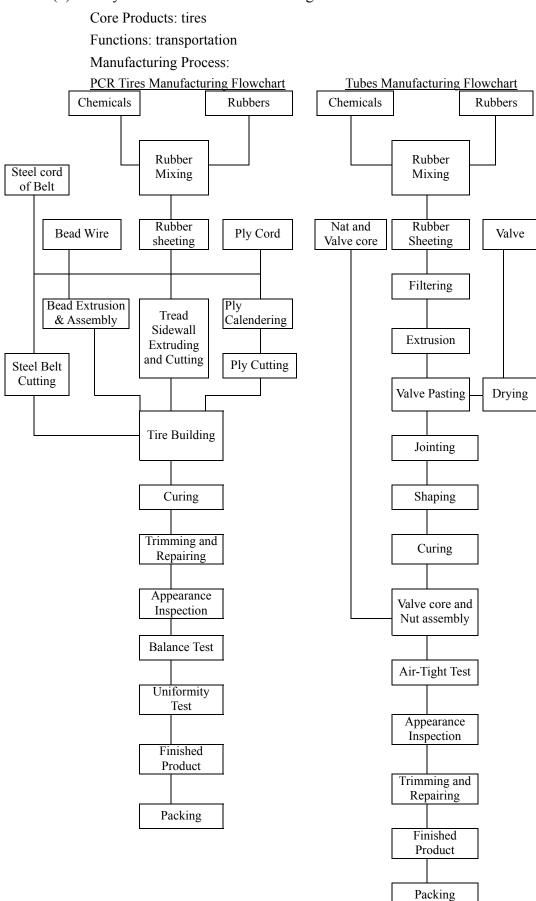

2018 was a year full of changes in the global politics and economies. How should the companies react since the global trade war has officially begun? The non-stop political conflicts in Taiwan have caused market instability and reduced the consumers' purchasing power, making the market competition even more fierce compared to the past. Furthermore, the market changes include the popularity of the China brands and lower pricing by the major brands threatens the Company's market position and lead to impacts on different levels.

As for the Taiwan car market, two trends brought our attention: First, the market share of SUV is growing rapidly, creating greater changes in the SUV tire market. In 2018, we launched the sale of HPM3 with integration of Full-Silica technology. For the tread pattern design, the four U-shaped wide grooves enables water to be evacuated effectively and enhance resistance to sideslip even on wet and slippery roads. The slits on the inside and outside tire ribs are used concurrently to avoid the watery film. This combination has made the slogan "When it comes to brakes, even one centimeter makes a difference" a reality. We have confidently increased the sale and presented a satisfying customer value proposition (CVP). The other trend is that market shares of domestic cars and imported cars have gradually matchup. As the amount of imported cars increases, the demand for OE units decreases and we further need to substitute with RE units to promote OE. We are prepared adopt this change and promote the high performance tire model, namely VS5, to cater the imported car owners. We will proactively set up a direct communication platform for our customers to strengthen the sales efficiency and respond to the swift changes of the market.

(b) 2019 Visions

In this drastic changing world, if a company changes too little, it will not be able to evolve with the challenges. The changes are filled with crisis and yet opportunities, pending on a company's reaction. Changes and breakthroughs, and how to stay in the market have become the crucial to all the industries, including the car and tire industries. The management must not only understand the market, grasp the market changes, cultivate the ability to look holistically and broadly, think deeply. With only the professional manager's expertise, prudence, and innovated approach looking forward, shall we find a correct and wining key strategy and accomplish extraordinary business.

Bearing the belief to clinch Top 5 in 2026, MAXXIS realizes it is time to change in order to survive. As long as the change is correct, the Company will leap to the top. Drinking the water while remembering where it comes from. When pursuing business growth, Cheng Shin shall continue to fulfill its corporate social responsibility by making contributions to the society. The Company will uphold the positive energy and the brand's core idea to utilize substantial influences and acted as a role model to contribute the beautiful world with love and care and initiate a new start in 2019.

### (2) Key Functions and Manufacturing Process of Core Products

| Supply of Key Matchials |  |  |  |  |
|-------------------------|--|--|--|--|

# 5.4 Environmental Related Expenditure

The Company is not subject to any material loss or sanction as a result of environmental pollution issues in the latest year and as of the date of the Annual Report.

Any circumstances to which the EU RoHS is applicable: N/A

#### 5.5 Labor

# (1) Current Material Labor Related Agreements and Implementation

1.Key Employee Benefits

Our employee compensation policy is fair and does not vary because of gender, race, religion, political view, or marital status. Based on the human resource supply and demand and the regional compensation standard, we set up a basic wage higher than the government's regulation and evaluate an employee's position, education background, work experience and tenure, and professional ability for reference. Our employee compensation standards mainly focus on work ability and performance while the work bonus does not differentiate because of gender.

For the welfare of our employees, we provide benefits in addition to salaries to our employees that are more preferential than what's required under the law. The welfare of the Company can be divided into the following two categories: statutory benefits as provided by the law and Company benefits as provided by the Company.

| Statutory benefits: | social insurance, public holidays, healthcare, pension, and employee benefits.  |
|---------------------|---|
| Living benefits:    | meals, uniform, housing, parking, store discounts, and leisure center.  |
| Holiday activities: | bonus and/or gifts for Chinese New Year, Dragon<br>Boat Festival and Mid-Autumn Festival, year-end<br>bonus, year-end party allowance, field trip |

| Employee support:                             | allowance, and far<br>medical allowa  |              | ondolence p     | payments, |

Rate of returning to work (B/A)

We are committed to building a continuous and fulfilling learning environment for employee education and training purposes. Under this core value, we adopted "Rules Governing Education and Training" to plan training courses based on professional skills required for each department and offer developmental opportunities to the entity and individuals by way of internal and external trainings. We also provide general-knowledge, technical and management training classes targeted at different job functions and levels of employees to enhance their professional and management skills. We invite outside experts to give lectures, and train speakers from within the Company as part of the conveyance of important knowledge and know-how of the Company, thereby sustaining our corporate culture and strengthening employee competitiveness.

In 2018, we offered 2,477 classes by job functions and 69 classes by job levels, and 189 classes in other different categories for a total of 84,451 hours. Based on the employee job levels, the training for the managerial employees is 16.5 hours per person on the average while that for the non-managerial ones is 12.5 hours per person.

- (a) New employee training: aimed to provide new employees with an orientation to the Company and corporate culture to help them adapt to the new environment and fit into the culture of the organization.
- (b) Training by job function: professional skills training courses designed to cater to different job functions, such as production management, research and development, and quality assurance, which are aimed to provide employees with a comprehensive training at each stage of their career development, and help them achieve self-realization and reach their potential through work.

- (c) Training by job level: a series of topical courses designed for different job levels to improve employees' management skills and efficiency.
- (d) Project-based programs: a variety of project-based programs designed to meet the employees' learning needs in different areas based on the annual training target.
- (e) Personal development: we provide opportunities for our employees to acquire new knowledge by offering financial support for language learning and hosting talks on topics such as coffee and lifestyle, health, labor laws and regulations.

Cheng Shin offers a variety of learning channels and resources. Other than on-the-job training and on-site demonstrations, we also emphasize the integration of theoretical knowledge and practical experiences.

**3.Retirement Systems** 

We comply with the requirements of the Labor Standards Act and Labor Pension Act.

- (a) Former pension system: The Company sets aside 2% of the employee's total salary each month as pension funds and deposit it to the designated account under the name of the Labor Pension Funds Supervisory Committee at the Bank of Taiwan. Before the end of each year, the Company shall assess the balance in the designated account. If the total available amount of the appropriation is less than the amount required for the payment of pensions to all the employees who are eligible to retire in the following year, calculated according to the above method, the Company will make up the deficiency in one single appropriation before the end of March in the following year. As of December 31, 2018, the amount of pension funds recognized by the Company under the former pension system was NT\$29,727,000.
- (b) New pension system: The new pension system is available to all employees who came onboard as of July 1, 2005. If an employee chooses to be subject to the new pension system, the Company will appropriate a set amount of pension funds into such employee's personal bank account (appropriation by the Company). Alternatively, the employee may appropriate 1-6% as pension funds to his/her personal bank account (appropriation by the employees). As of December 31, 2018, the amount of pension funds recognized by the Company under the new person system was NT\$145,048,000.
- 4.Employee Satisfaction: The Company conducts employee satisfaction survey regularly. The survey includes the following areas: corporate system and culture, work environment, educational training, salary and benefits. The employee satisfaction survey is one of the many measures we've taken to receive employee feedbacks. We take the results of the survey as a point of reference to improve company policies. The average score on the employee satisfaction survey in 2018 was 72, in which we scored the highest on "employee relationships" at 82,

indicating harmony between our employees.

- 5.Other Key Understanding: To elevate work efficiency, improve work conditions and strengthen harmony between employees and employer, the Company has set up the labor union in accordance with the local regulations. The employees are all protected by the collective agreements signed by the Company and the labor union.
- (2) The Company is neither subject to any loss arising from labor disputes in the latest year and as at the date of this Annual Report, nor a party to any material labor dispute since incorporation. We do not expect any loss arising from labor disputes in the future.
- 5.6 Material Contracts: None

Note : Financial information regarding the fourth quarter of 2017 follows IFRS and has been verified by independent auditors.

Analysis if difference reaches 20%:

1.Decrease in Current ratio : due to increase in Current .portion of long-term liabilities.

- 2. Decrease in Quick ratio : due to increase in Current .portion of long-term liabilities y.
- 3. Decrease in Interest coverage multiplicity : due to decrease in Net profit before income tax.
- 4. Decrease in Inventory turnover rate : due to increase in Inventory.

5. Increase in Average days required for sales : due to increase in Inventory.

6. Decrease in Asset return ratio : due to decrease in Profit and/or loss after tax.

7. Decrease in Equity return ratio : due to decrease in Profit and/or loss after tax..

8. Decrease in Ratio of operating profit to paid-in capital : due to decrease in Operating profit.

9. Decrease in Ratio of net profit before tax to paid-in capital : due to decrease in Net profit before tax.

10. Decrease in Net profitability : due to decrease in Profit and/or loss after tax.

11. Decrease in Earnings per share (EPS) : due to decrease in Profit and/or loss after tax.

12. Decrease in Cash flow ratio : due to increase in Current portion of long-term liabilities.

13. Increase in Cash reinvestment ratio : due to decrease in Cash dividend and Cash flow in operating activities.

14. Increase in Operating Leverage : due to decrease in Operating interests.

15. Increase in Financial Leverage : due to decrease in Operating interests.

Formula to calculate the financial analyses:

1. Financial structure

(1)Liabilities to assets ratio=Total liabilities/Aggregate total of assets.

(2)Long-term working capital to real estate, plants and equipment ratio = (Aggregate total of equity + Non-current liabilities)  $\nearrow$  Real estate, plants and equipment, net..

2. Solvency

(1)Current ratio =Current assets  $\angle$  Current liabilities.

(2)Quick ratio = (Current assets – Inventory – Expenses paid in advance)  $\angle$  Current liabilities.

(3)Interest coverage multiplicity=Net profit before income tax, interest and expenses / Interest expenditures this term.

3. Manageability

(1)Accounts receivable(including notes receivables from operating activities and accounts receivable) turnover rate = Net sales / Average balance of accounts receivable(including notes receivables from operating activities and accounts receivable) in various terms.

(2)Average cash collection days = 365 / Accounts receivable turnover rate.

(3)Inventory turnover rate=Sales costs / Average amount of inventory.

(4)Accounts payable (including notes payable from operating activities and accounts payable) turnover rate = Sales costs / Average balance of accounts payable (including notes payable from operating activities and accounts payable) of various terms.

(5)Average days required for sales = 365 / Inventory turnover rate.

(6)Real estate, plants and equipment turnover rate = Net sales / Average real estate, plants and equipment, net..

(7)Aggregate total asset turnover rate = Net sales / Average aggregate total of assets.

4. Profitability

(1)Asset return ratio = [Profit and/or loss after tax + Interest expenses × (1 - Tax rate)] / Average aggregate total of assets.

(2)Equity return ratio = Profit and/or loss after tax  $\angle$  Average aggregate total of equity.

(3)Net profitability = Profit and/or loss after tax  $\checkmark$  Net sales.

(4)Earnings per share (EPS) = (Profit and/or loss belonging to parent company proprietor -Preferred shares dividend) / Weighted average number of outstanding shares.

#### 5. Cash flow

(1)Cash flow ratio=Cash flow in operating activities / Current liabilities.

(2) Net cash flow adequacy ratio = Cash flow in operating activities over the past five years / (Capital expenditure + Amount of inventory increase + Cash dividend) over the past five years.

(3)Cash reinvestment ratio=(Cash flow in operating activities-Cash dividend)/(Gross property,

plant, and equipment +Long-term investment +Other assets + operating fund).

#### 6. Leverage:

(1)Operating Leverage=(Operating revenues, net-Variable operating costs and expenses) / Operating interests.

(2) Financial Leverage=Operating interests / (Operating interests-Interest expenses).

6.3 Review Report Issued by the Supervisors' over the Financial Statements of the Latest Year

# Audit Committee's Report

To the 2019 Annual General Meeting of Cheng Shin Rubber Ind. Co., LTD.:

The Board of Directors has prepared and submitted the Company's 2018 Business Report, Financial Statements (including individual and consolidated financial statements) and the proposed profit distribution, of which the Financial Statements have been audited and certified by the independent auditors, Grace Hung and Steven Go, of PricewaterhouseCoopers Taiwan, and an audit report has been issued. The Business Report, Financial Statements and the proposed profit distribution have been reviewed by us, the Audit Committee of the Company. We have not found any inconsistencies with applicable laws in our review of the aforementioned documents. Therefore, we, the Audit Committee, hereby issue this report in compliance with Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act.

部题释

Hsu, En-De Chairman of the Audit Committee

Dated: March 21, 2019

6.4 Consolidated Financial Statements of the latest year duly audited by the Certified Public Accountants

CHENG SHIN RUBBER IND. CO., LTD. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND REPORT OF INDEPENDENT ACCOUNTANTS DECEMBER 31, 2018 AND 2017

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### REPORT OF INDEPENDENT ACCOUNTANTS

# Cheng Shin Rubber Ind. Co., Ltd. and subsidiaries Declaration of Consolidated Financial Statements of Affiliated Enterprises

For the year ended December 31, 2018, pursuant to "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises," the Company that is required to be included in the consolidated financial statements of affiliates, is the same as the Company required to be included in the consolidated financial statements of parent and subsidiary companies under International Financial Reporting Standards 10. And if relevant information that should be disclosed in the consolidated financial statements of affiliates has all been disclosed in the consolidated financial statements of parent and subsidiary companies, it shall not be required to prepare separate consolidated financial statements of affiliates.

Hereby declare

#### REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

#### PWCR18004382

To the Board of Directors and Shareholders of Cheng Shin Rubber Ind. Co., Ltd. and subsidiaries

# **Opinion**

We have audited the accompanying consolidated balance sheets of Cheng Shin Rubber Ind. Co., Ltd. and subsidiaries (the "Group") as at December 31, 2018 and 2017, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the report of other independent accountants (please refer to the "other matter" section of our report), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2018 and 2017, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

# **Basis for opinion**

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in t h e Auditor's Responsibilities for the Audit of the consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Professional Ethics for Certified Р b i u с Accountants in the Republic of China (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's financial statements of the current period are stated as follows:

# Appropriateness of cut-off on sales revenue

#### Description

For the accounting policy of revenue recognition, please refer to Note 4(30). For the year ended December 31, 2018, the sales revenue amounted to NT\$109,221,209 thousand.

The Group's main business is the manufacturing and sales of various tires and rubber products. The main sources of sales revenue are from the assembly plant and dealers. In accordance with the contract terms with the assembly plant, as inspections are completed in the assembly plant, the transfer of control to the merchandise is completed and sales revenue is recognized. The sales revenue recognition process involves many manual controls and adjustments are likely to occur. As a result, the timing of sales revenue recognition could be inappropriate. Therefore, we included the appropriateness of cut-off on sales revenue as one of the key areas of focus for this year.

#### How our audit addressed the matter

The procedures that we have conducted in response to the above key audit matter are summarized as follows:

- 1. We obtained an understanding of the Group's sales revenue cycle, reviewed internal control process and contracts of assembly plant sales in order to assess the effectiveness of managements' control of revenue recognition on assembly plant sales.
- 2. We tested the Group's sales transactions around the year-end date to check whether assembly plant sales are recorded in the proper period. We also tested whether changes in inventory and cost of goods sold were carried over and recorded in the proper period in order to assess the appropriateness of cut-off on sales revenue.
- 3. We tailored our audit over sales cut-off through accounts receivable testing based on the confirmation procedures in order to check whether sales revenue and accounts receivable are recorded in the proper period.

# Timing of reclassification of unfinished construction and uninspected equipment to property, plant and equipment.

### Description

For the accounting policy on property, plant and equipment, please refer to Note 4(15). For the details of property, plant and equipment, please refer to Note 6(7). As of December 31, 2018, the unfinished construction and equipment under acceptance amounted to NT\$8,005,642 thousand.

To maintain market competitiveness, the Group continuously replaces old production lines with new ones and incurs significant amounts of capital expenditures every year. The unfinished construction and uninspected equipment are measured at cost. When the finished construction's inspection report is issued and the uninspected equipment is ready for use, they are reclassified to property, plant and equipment and starts accrual of depreciation expense. The inspection process involves human judgement, thus, the timing of reclassification and accrual of depreciation expense could be inappropriate. Therefore, we indicated that the audit of timing of depreciation recognition after reclassification of unfinished construction and uninspected equipment to property, plant and equipment as one of the key areas of focus for this year.

#### How our audit addressed the matter

The procedures that we have conducted in response to the above key audit matter are summarized as follows:

- 1. We obtained an understanding of the Group's property, plant and equipment process cycle, reviewed the internal control process and purchase contracts of property, plant and equipment in order to assess the effectiveness of managements' control of timing of reclassification of unfinished construction and uninspected equipment to property, plant and equipment.
- 2. We tailored our audit over fixed asset classification to check whether reclassification of assets are accurate and recorded in the proper period.
- 3. We verified the status of unfinished construction and uninspected equipment and assessed the reasonableness of the recognition of unfinished construction and uninspected equipment.

# Other matter – Scope of the audit

We did not audit the financial statements of certain consolidated subsidiaries, which statements reflect total assets of NT\$4,628,825 thousand and NT\$4,390,772 thousand, representing 3% and 2% of the consolidated total assets as of December 31, 2018 and 2017, respectively, and the total liabilities of NT\$1,799,837 thousand and NT\$1,820,861 thousand, both constituting 2% of the consolidated total liabilities as of December 31, 2018 and 2017, respectively, and total operating revenues of

NT\$5,257,000 thousand and NT\$5,198,435 thousand, both representing 5% of consolidated total net operating revenue for the years then ended, respectively. Those financial statements and the information disclosed in Note 13 were audited by other independent accountants whose reports thereon have been furnished to us, and our opinion expressed herein is based solely on the audit reports of the other independent accountants.

# Other matter – Parent company only financial statements

We have audited and expressed an unqualified opinion with other matter paragraph on the parent company only financial statements of the Group as at and for the years ended December 31, 2018 and 2017.

# Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Group's financial reporting process.

# Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Hung, Shu-Hua

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment. The quantitative impact is detailed as follows:

- A. IFRS 9, 'Financial instruments'
  - (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortised cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading in other comprehensive income.
  - (b) The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognise 12-month expected credit losses or lifetime expected credit losses (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument has objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount (i.e. net of credit allowance). The Group shall always measure the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component.
  - (c) The Group has elected not to restate prior period financial statements using the modified retrospective approach under IFRS 9. For details of the significant effect as at January 1, 2018, please refer to Note 12(4) B.
- B. IFRS 15, 'Revenue from contracts with customers' and amendments
  - (a) IFRS 15, 'Revenue from contracts with customers' replaces IAS 11 'Construction contracts', IAS 18, 'Revenue' and relevant interpretations. According to IFRS 15, revenue is recognised when a customer obtains control of promised goods or services. A customer obtains control of goods or services when a customer has the ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of

promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with that core principle by applying the following steps:

- Step 1: Identify contracts with customer.
- Step 2: Identify separate performance obligations in the contract(s).
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price.
- Step 5: Recognise revenue when the performance obligation is satisfied.

Further, IFRS 15 includes a set of comprehensive disclosure requirements that requires an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

- (b) The Group has elected not to restate prior period financial statements and recognised the cumulative effect of initial application as retained earnings at January 1, 2018, using the modified retrospective approach under IFRS 15. The significant effects of adopting the modified transition as of January 1, 2018 are summarised below:
  - i. Presentation of assets and liabilities in relation to contracts with customers In line with IFRS 15 requirements, the Group changed the presentation of certain accounts in the balance sheet as follows:
    - (i) Under IFRS 15, liabilities in relation to expected volume discounts and refunds to customers are recognised as refund liabilities (shown as other current liabilities), but were previously presented as other current liabilities in the balance sheet. As of January 1, 2018, the balance amounted to \$84,699 thousand.
    - (ii) Under IFRS 15, liabilities in relation to the customer loyalty programme are recognized as contract liabilities, but were previously presented as deferred revenue (shown as other current liabilities) in the balance sheet. As of January 1, 2018, the balance amounted to \$51,432 thousand.
    - (iii) Under IFRS 15, liabilities are recognised as contract liabilities, but were previously presented as advance sales receipts (shown as other current liabilities) in the balance sheet. As of January 1, 2018, the balance amounted to \$811,514 thousand.

ii. Please refer to Note 12(5) for disclosures in relation to the first application of IFRS 15.

C. Amendments to IAS 7, 'Disclosure initiative'

This amendment requires that an entity shall provide more disclosures related to changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The Group expects to provide additional disclosure to explain the changes in liabilities arising from financing activities.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2019 are as

follows:

| New Standards, Interpretations and Amendments                                | Effective date by<br>International Accounting<br>Standards Board |
|--|--|
|  |  |
| Amendments to IFRS 9, 'Prepayment features with negative compensation'       | January 1, 2019  |
| IFRS 16, 'Leases'  | January 1, 2019  |
| Amendments to IAS 19, 'Plan amendment, curtailment or settlement'            | January 1, 2019  |
| Amendments to IAS 28, 'Long-term interests in associates and joint ventures' | January 1, 2019  |
| IFRIC 23, 'Uncertainty over income tax treatments'                           | January 1, 2019  |
| Annual improvement to IFRSs 2015-2017 cycle                                  | January 1, 2019  |

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

The Group expects to recognise the lease contract of lessees in line with IFRS 16. However, the Group does not intend to restate the financial statements of prior period (collectively referred herein as the "modified retrospective approach"). On January 1, 2019, it is expected that 'right-of-use asset' will be increased by \$5,020,043 thousand and other current assets will be decreased by \$5,020,043 thousand.

## (3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

|  | Effective date by<br>International Accounting                      |
|--|--|
| New Standards, Interpretations and Amendments  | Standards Board  |
| Amendment to IAS 1 and IAS 8, 'Disclosure Initiative-Definition of Material'   | January 1, 2020  |
| Amendment to IFRS 3, 'Definition of a business'  | January 1, 2020  |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets<br>between an investor and its associate or joint venture' | To be determined by<br>International Accounting<br>Standards Board |
| IFRS 17, 'Insurance contracts'   | January 1, 2021  |
|  |  |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements

are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) <u>Compliance statement</u>

A. The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
  - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
  - (b) Financial assets at fair value through other comprehensive income/Available-for-sale financial assets measured at fair value.
  - (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.
- C. In adopting IFRS 9 and IFRS 15 effective January 1, 2018, the Group has elected to apply modified retrospective approach whereby the cumulative impact of the adoption was recognised as retained earnings or other equity as of January 1, 2018 and the financial statements for the year ended December 31, 2017 were not restated. The financial statements for the year ended December 31, 2017 were prepared in compliance with International Accounting Standard 39 ('IAS 39'), International Accounting Standard 11 ('IAS 11'), International Accounting Standard 18 ('IAS 18') and related financial reporting interpretations. Please refer to Notes 12(4) and (5) for details of significant accounting policies and details of significant accounts.
- (3) Basis of consolidation
  - A. Basis for preparation of consolidated financial statements:
    - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
    - (b) Inter-company transactions, balances and unrealized gains or losses on transactions between

companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

- Note 1: Cheng Shin International (HK) Ltd. and Cheng Shin Tire & Rubber (China) Co., Ltd. collectively hold 100% equity interest in Cheng Shin Tire & Rubber (Chongqing) Co., Ltd.
- Note 2: Maxxis International (HK) Ltd. and Cheng Shin Rubber (Xiamen) Ind., Ltd. collectively hold 100% equity interest in Cheng Shin Rubber (Zhangzhou) Ind. Co., Ltd.
- Note 3: Maxxis International Co., Ltd. and Cheng Shin Rubber (Xiamen) Ind., Ltd. collectively hold 100% equity interest in Cheng Shin Petrel Tire (Xiamen) Co., Ltd.
- Note 4: On January 1, 2016, the shareholders during their meeting resolved for the liquidation of the Group's subsidiary, CHENG SHIN (ZHANGZHOU) MECHANICAL & ELECTRICAL ENGINEERING CO., LTD. As of June, 2017, the liquidation was completed.
- Note 5: On December 21, 2016, the shareholders during their meeting resolved the liquidation of the Group's subsidiary, CIAO SHIN CO., LTD. As of September, 2017, the liquidation was completed.
- Note 6: In May 2017, the Group established subsidiary, PT. MAXXIS TRADING INDONESIA, in Indonesia, remitted out investment in the amount of USD 1,000 thousand in October 2017, and acquired 100% equity interest. The subsidiary was included in the consolidated entities in 2017.
- Note 7: In May 2018, the Group established a subsidiary, Maxxis Europe B.V, in the Netherlands, remitted out investment in the amount of EUR 500 thousand in October 2018, and acquired 100% equity interest. The subsidiary was included in the consolidated entity in 2018.
- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates:
  - None.
- E. Significant restrictions:

None.

- F. Subsidiaries that have non-controlling interests that are material to the Group: None.
- (4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

- A. Foreign currency transactions and balances
  - (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured.

Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.

- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.
- B. Translation of foreign operations

The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognized in other comprehensive income.
- (5) Classification of current and non-current items
  - A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
    - (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
    - (b) Assets held mainly for trading purposes;
    - (c) Assets that are expected to be realized within twelve months from the balance sheet date;
    - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
  - B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) Liabilities that are expected to be settled within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- (6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

- (7) Financial assets at fair value through profit or loss
  - A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
  - B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
  - C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
  - D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.
- (8) Financial assets at fair value through other comprehensive income
  - A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
    - (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
    - (b) The assets' contractual cash flows represent solely payments of principal and interest.
  - B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
  - C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
    - (a) The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when

the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

- (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognised in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss.
- (9) Notes and accounts receivable
  - A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
  - B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (10) Impairment of financial assets

The Group measured the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component on every balance sheet dates.

(11) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(12) Lease receivables/ leases (lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(13) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

- (14) Investments accounted for using equity method / associates
  - A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
  - B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized

in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

- C. When changes in an associate's equity that are not recognized in profit or loss or other comprehensive income of the associate and such changes not affecting the Group's ownership percentage of the associate, the Group recognizes the Group's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. When the Group disposes its investment in an associate, if it loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it still retains significant influence over this associate, then the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

### (15) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant

and equipment are as follows:

- (a) Buildings :  $5 \sim 60$  years
- (b) Machinery and equipment : 15 years
- (c) Test equipment : 5 years
- (d) Transportation equipment : 6 years
- (e) Office equipment : 5 years
- (f) Other assets :  $3 \sim 5$  years
- (16) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of  $5 \sim 55$  years.

(17) Intangible assets

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 2 to 5 years.

(18) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(19) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

- (20) Notes and accounts payable
  - A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
  - B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (21) Financial liabilities at fair value through profit or loss
  - A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial

liabilities held for trading unless they are designated as hedges.

B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.

## (22) Bonds payable

Ordinary corporate bonds issued by the Group are initially recognised at fair value less transaction costs. Any difference between the proceeds (net of transaction costs) and the redemption value is presented as an addition to or deduction from bonds payable, which is amortised to profit or loss over the period of bond circulation using the effective interest method as an adjustment to 'finance costs'.

(23) Derecognition of financial liabilities

Financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(24) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(25) <u>Non-hedging derivatives</u>

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

(26) Provisions

Provisions (including decommissioning) are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to passage of time is recognized as interest expense. Provisions are not recognized for future operating losses.

- (27) Employee benefits
  - A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

- B. Pensions
  - (a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

- (b) Defined benefit plans
  - i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead.
  - ii. Remeasurement arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- C. Employees', directors' and supervisors' remuneration

Employees' remuneration and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

- (28) Income tax
  - A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
  - B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
  - C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the

consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.

- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the liability simultaneously.
- F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.
- (29) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(30) <u>Revenue recognition</u>

Sales of goods

(a) The Group manufactures and sells various tire and rubber products. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

- (b) Sales revenue of the Group, which mainly consists of sale of various tires and rubber products, was recognised based on the contract price net of sales discount and price break. Accumulated experience is used to estimate and provide for the sales discounts and allowances and price break, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognised for expected sales discounts and allowances and price break payable to customers in relation to sales made until the end of the reporting period. The sales are usually made with a credit term of 30 ~90 days. As the time interval between the transfer of committed goods or service and the payment of customer does not exceed one year, the Group does not adjust the transaction price to reflect the time value of money.
- (c) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

## (31) Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes expenses for the related costs for which the grants are intended to compensate. Government grants related to property, plant and equipment are recognized as non-current liabilities and are amortized to profit or loss over the estimated useful lives of the related assets using the straight-line method.

### (32) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

## 5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF

## ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. There is no critical accounting judgement, estimates and assumptions uncertainty for the year ended December 31, 2018.

### 6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

| Cash on hand and revolving funds |    | ember 31, 2018 | Dece | ember 31, 2017 |
|----------------------------------|----|----------------|------|----------------|
|                                  |    | 3,127          | \$   | 3,104          |

A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Group has reclassified pledged time deposits to 'other current assets'. Please refer to Note 8 for details.

(2) Financial assets and financial liabilities at fair value through profit or loss

| Items                              | December 31, 2018 |       |
|------------------------------------|-------------------|-------|
| Current items:                     |                   |       |
| Financial assets held for trading  |                   |       |
| Forward foreign exchange contracts | \$                | 3,243 |

A. For the year ended December 31, 2018, the Company recognised net gain of \$4,703 thousand on financial assets held for trading.

B. The non-hedging derivative instruments transaction and contract information are as follows:

|                                    | December                                | 31, 2018        |  |
|------------------------------------|---|-----------------|--|
| Derivative instruments             | Contract amount<br>(Notional principal) | Contract period |  |
| Current items:                     |   |                 |  |
| Forward foreign exchange contracts |   | 2018/11/2~      |  |
| USD enchange to NTD                | USD 18,000 thousand                     | 2019/1/12       |  |

The Group entered into forward foreign exchange contracts to sell USD to hedge exchange rate risk of import (export) proceeds. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

- C. Information relating to credit risk of financial assets and liability at fair value through profit or loss is provided in Note 12(2).
- D. Information on financial liabilities at fair value through profit or loss as of December 31, 2017 is provided in Note 12(4).

(3) Financial assets at fair value through other comprehensive income

| Items                | Decem | ber 31, 2018 |
|----------------------|-------|--------------|
| Current items:       |       |              |
| Equity instruments   |       |              |
| Listed stocks        | \$    | 8,665        |
| Valuation adjustment |       | 14,221       |
| Total                | \$    | 22,886       |
| Non-current items:   |       |              |
| Equity instruments   |       |              |
| Unlisted stocks      | \$    | 58,187       |

A. The Group has elected to classify equity instruments investments that are considered to be steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$81,073 thousand as at December 31, 2018.

B. Amounts recognized in other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

|  | Year ended December 31, 2018 |        |
|--|------------------------------|--------|
| Equity instruments at fair value through other |                              |        |
| comprehensive income                           |                              |        |
| Fair value change recognised in other          |                              |        |
| comprehensive income                           | ( <u>\$</u>                  | 4,663) |

- C. Information relating to credit risk of financial assets at fair value through other comprehensive income is provided in Note 12(2).
- D. Information on available-for-sale financial assets as of December 31, 2017 is provided in Note 12(4).

#### (4) Notes and accounts receivables

|                      | December 31, 2018 |           | December 31, 2017 |           |
|----------------------|-------------------|-----------|-------------------|-----------|
| Notes receivable     | \$                | 2,682,820 | \$                | 2,307,762 |
| Less: Loss allowance | ( 9,277) (        |           | ()                | 9,277)    |
|                      | \$                | 2,673,543 | \$                | 2,298,485 |
| Accounts receivable  | \$                | 9,877,274 | \$                | 9,870,136 |
| Less: Loss allowance | (                 | 15,343)   | ()                | 17,551)   |
|                      | \$                | 9,861,931 | \$                | 9,852,585 |

A. The ageing analysis of accounts receivable and notes receivable that were past due but not impaired is as follows:

|                  | December        | 31, 2 | 2018           | <br>December    | : 31, 2 | 2017           |
|------------------|-----------------|-------|----------------|-----------------|---------|----------------|
|                  | <br>Accounts    |       |                | <br>Accounts    |         |                |
|                  | <br>receivable  | No    | tes receivable | <br>receivable  | Not     | tes receivable |
| Without past due | \$<br>8,267,534 | \$    | 2,682,820      | \$<br>8,050,196 | \$      | 2,307,762      |
| Up to 30 days    | 920,577         |       | -              | 1,297,167       |         | -              |
| 31 to 90 days    | 348,616         |       | -              | 377,313         |         | -              |
| 91 to 180 days   | 191,749         |       | -              | 102,816         |         | -              |
| Over 180 days    | <br>148,798     |       | -              | <br>42,644      |         | -              |
|                  | \$<br>9,877,274 | \$    | 2,682,820      | \$<br>9,870,136 | \$      | 2,307,762      |

The above ageing analysis was based on past due date.

B. Information relating to credit risk of accounts receivable and notes receivable is provided in Note 12(2).

(5) <u>Inventories</u>

A. Rental income from investment property is shown below:

|                     | Year ended De | ecember | Year ende | d December |
|---------------------|---------------|---------|-----------|------------|
|                     | 31, 201       | 8       | 31,       | 2017       |
| Rental income from  |               |         |           |            |
| investment property | \$            | 30,440  | \$        | 17,667     |

- B. The fair value of the investment property held by the Group as at December 31, 2018 and 2017 was \$922,735 thousand and \$920,819 thousand, respectively, which were valued by independent appraisers. Valuations were made using the comparison method which is categorized within Level 3 in the fair value hierarchy.
- C. The Company acquired the land in Shangmei Section, Dacun Township, Changhua County which is farming and pasturable land. The land will be registered under the Company after the classification of the land is changed. Currently, the land is under the name of related party, Mr. /Ms. Chiu. The Company plans to use the land for operational expansion. The Company holds the original ownership certificate of such land and signed a land trust agreement, which requires the nominal holder not to transfer the ownership of the land to others.
- (9) Other non-current assets

|                   | Decer | mber 31, 2018 | December 31, 2017 |           |  |  |
|-------------------|-------|---------------|-------------------|-----------|--|--|
| Land-use right    | \$    | 5,020,043     | \$                | 5,198,693 |  |  |

A. In order to fulfil its capital and repay long-term and short-term loans, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by the Taipei Exchange on July 16, 2018 and completed on July 25, 2018. The bonds were fully issued and total issuance amount was \$5 billion with a coupon rate of 0.87%. The issuance period of the bonds is 5 years, which is from July 25, 2018 and July 25, 2023. The terms are as follows:

(a). Interest accrued/paid:

The interest is accrued/paid at a single rate annually from the issue date.

(b). Redemption:

The principal of the corporate bond will be redeemed at 50% of the total amount after four and five years from the issue date.

- B. In order to fulfil its capital and repay long-term and short-term loans, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by the Taipei Exchange on August 1, 2017 and completed on August 10, 2017. The bonds were fully issued and total issuance amount was \$7 billion with a coupon rate of 1.03%. The issuance period of the bonds is 5 years, which is from August 10, 2017 to August 10, 2022. The terms are as follows:
  - (a) Interest accrued/ paid:

The interest is accrued/ paid at a single rate annually from the issue date.

(b) Redemption:

The principal of the corporate bond will be redeemed at 50% of the total amount after four and five years from the issue date.

- C. In order to fulfil its capital and repay long-term and short-term loans, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by the Taipei Exchange on September 13, 2016 and completed on September 26, 2016. The bonds were fully issued and total issuance amount was \$5 billion with a coupon rate of 0.71%. The issuance period of the bonds is 5 years, which is from September 26, 2016 to September 26, 2021. The terms are as follows:
  - (a) Interest accrued/ paid:

The interest is accrued/ paid at a single rate annually from the issue date.

(b) Redemption:

The principal of the corporate bond will be redeemed at 50% of the total amount after four and five years from the issue date.

- D. In order to meet operating capital requirements, repay debts and improve the financial structure, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by FSC on June 6, 2014 and completed on July 18, 2014. The bonds were fully issued and total issuance amount was \$4.8 billion with a coupon rate of 1.40%. The issuance period of the bonds was 5 years, which is from July 18, 2014 to July 18, 2019. The terms are as follows:
  - (a) Interest accrued/ paid:

The interest is accrued/ paid at a single rate annually from the issue date.

(b) Redemption:

The corporate bonds will be redeemed in full amount at the maturity date.

E. In order to fulfil its capital and repay long-term and short-term loans, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by FSC on May 20, 2013 and completed on August 19, 2013. The

bonds were fully issued and total issuance amount was \$3.8 billion with a coupon rate of 1.55%. The issuance period of the bonds was 5 years, which is from August 19, 2013 to August 19, 2018. The terms are as follows:

(a) Interest accrued/ paid:

The interest is accrued/ paid at a single rate annually from the issue date.

(b) Redemption:

The principal of the corporate bond will be redeemed at 50% of the total amount after four and five years from the issue date.

- A. Above mentioned borrowings are capital financings through financial institutions and associates.
- B. According to the borrowing contract, the Group shall calculate the financial ratios based on the

audited annual financial statements (non-consolidated and consolidated) and the reviewed semi-annual consolidated financial statements. The financial ratios shall be maintained as follows: at least 100% for current ratio, no more than 200% for debt-to-equity ratio, at least 150% for debt-service coverage ratio. The financial ratios as assessed in the financial statements have met the abovementioned requirements at December 31, 2018 and 2017.

C. The currencies and carrying amounts (in thousands of New Taiwan dollars) of the Group's long-term borrowings denominated in foreign currencies are as follows:

| Currency | December 31, 2018 | December 31, 2017 |
|----------|-------------------|-------------------|
| USD      | \$ 17,145,052     | \$ 15,347,956     |

| THB      | 1,851,953         | 1,835,200         |

### (15) Pensions

- A. (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law Act, covering all regular employees' including commissioned managers service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.
  - (b) The amounts recognized in the balance sheet are as follows:

|  | Dece | ember 31, 2018 | December 31, 2017 |           |  |
|--|------|----------------|-------------------|-----------|--|
| Present value of defined benefit obligations | \$   | 1,389,880      | \$                | 1,475,833 |  |
| Fair value of plan assets                    | (    | 680,510)       | ()                | 721,893)  |  |
| Net defined benefit liability                | \$   | 709,370        | \$                | 753,940   |  |

(c) Movements in net defined benefit liabilities are as follows:

|                                 | Pres | sent value of | Fa          | air value of |                   |                |
|---------------------------------|------|---------------|-------------|--------------|-------------------|----------------|

| Balance at December 31          | ¢    | 1,475,833     | (\$         | 721,893)     | \$                | 753,940        |

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual

investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company and domestic subsidiaries have no right to participate in managing and operating that fund and hence the Company and domestic subsidiaries are unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2018 and 2017 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

For the years ended December 31, 2018 and 2017, the actual return on plan assets was \$29,976 thousand and \$7,839 thousand, respectively.

(e) The principal actuarial assumptions used were as follows:

|                         | Year ended December | Year ended December |
|-------------------------|---------------------|---------------------|
|                         | 31, 2018            | 31, 2017            |
| Discount rate           | <u>1.00%</u>        | <u>1.10%</u>        |
| Future salary increases | <u>3.00%</u>        | <u>3.00%</u>        |

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

|                            | Discou               | int rate  | Future salary increases |                      |  |  |
|----------------------------|----------------------|-----------|-------------------------|----------------------|--|--|
|                            | Increase             | Decrease  | Increase                | Decrease             |  |  |
|                            | 0.25%                | 0.25%     | 0.25%                   | 0.25%                |  |  |
| December 31, 2018          |                      |           |                         |                      |  |  |
| Effect on present value of |                      |           |                         |                      |  |  |
| defined benefit obligation | ( <u>\$ 35,158</u> ) | \$ 36,534 | \$ 32,433               | ( <u>\$ 31,436</u> ) |  |  |
| December 31, 2017          |                      |           |                         |                      |  |  |
| Effect on present value of |                      |           |                         |                      |  |  |
| defined benefit obligation | ( <u>\$ 38,553</u> ) | \$ 40,106 | \$ 35,767               | ( <u>\$ 34,629</u> ) |  |  |

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

- (f) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2018 amount to \$34,706 thousand.
- (g) As of December 31, 2018, the weighted average duration of the retirement plan is 11 years. The analysis of timing of the future pension payment was as follows:

| Within 1 year | \$<br>130,181 |
|---------------|---------------|
| 2-5 years     | 252,082       |
| Over 6 years  | <br>387,343   |
|               | \$<br>769,606 |

B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined

contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

- (b) The pension costs under defined contribution pension plans of the Company and MAXXIS (Taiwan) Trading Co., Ltd. for the years ended December 31, 2018 and 2017 were \$145,746 thousand and \$131,507 thousand, respectively.
- C. (a) The Company's mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. The contribution percentage for the years ended December 31, 2018 and 2017 ranged between 14% ~ 20%. Other than the monthly contributions, the Group has no further obligations. The pension costs under defined contribution pension plans of the Group for the years ended December 31, 2018 and 2017, were \$378,079 thousand and \$406,906 thousand, respectively.
  - (b) The subsidiaries, Cheng Shin Rubber USA, Inc., Cheng Shin Rubber CANADA, Inc. and Maxxis Tech Center Europe B.V., have a defined contribution plan in accordance with the local regulations, and contributions to endowment insurance and pension reserve are based on employees' salaries and wages. Other than the annual contribution, the subsidiaries have no further obligations. The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2018 and 2017, were \$13,908 thousand and \$13,401 thousand, respectively.
  - (c) Starting from January 2011, the subsidiary, Maxxis International (Thailand) Co., Ltd., has provision for employees' pensions based on the actuarial reports. As of December 31, 2018 and 2017, the net liabilities recognised in the balance sheets were \$37,461 thousand and \$36,482 thousand, respectively. The subsidiaries established a provident fund in accordance with the Provident Fund Act B.E. 2530 (1987) and has been approved by

Ministry of Finance. The fund is contributed by Thailand subsidiaries and employees at 3%~7% of their salaries. Pension was paid from pension fund accounts based on the provident fund act when employees withdrew the fund. The pension costs under defined contribution pension plans for the years ended December 31, 2018 and 2017, were \$17,763 thousand and \$9,328 thousand, respectively.

- (d) According to Indonesian local government's regulations "2015 PP Nomor 60" and "2015 PP Nomor 45", the Group's subsidiaries, PT MAXXIS International Indonesia and PT. MAXXIS TRADING INDONESIA, contribute monthly an amount equal to 3.7% and 2% of the employees' monthly salaries and wages to the retirement insurance; contribute monthly an amount equal to 2% and 1% to pension, respectively. For the years ended December 31, 2018 and 2017, the pension expense accrued in accordance to the aforementioned regulation amounted to \$5,364 thousand and \$1,818 thousand, respectively.
- (e) According to Indonesian local government's regulation "Employees Provident Fund and Miscellaneous Provisions Act, 1952", the Group's subsidiary, Maxxis Rubber India Private Ltd., established an employees' provident fund. Employer and employees each contributed 12% of salaries and wages to the provident fund. For the years ended December 31, 2018 and 2017, the pension cost accrued in accordance to the aforementioned regulation amounted to \$6,158 thousand and \$6,722 thousand, respectively.
- (16) Share capital

As of December 31, 2018, the Company's authorized capital and paid-in capital were both \$32,414,155 thousand, and all proceeds from shares issued have been collected.

(17) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

- (18) <u>Retained earnings</u>
  - A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. The appropriation of the remaining amount along with the unappropriated earnings shall be proposed by the Board of Directors and resolved by the shareholders. According to the appropriation of earnings proposed by the Board of Directors, at least 10% ~ 80% of the Company's accumulated distributable earnings shall be appropriated as dividends, and cash dividends shall account for at least 10% of the total d i v d n d S d t r i t e i S b u e d B. Where the Company accrues annual net income, no less than 2% of which shall be
    - ~ 171 ~

appropriated as employees' compensation and no higher than 3% of which shall be appropriated as directors' and supervisors' remuneration after offsetting accumulated deficit. The employees' compensation can be appropriated in the form of share or cash whereas the directors' and supervisors' remuneration can only be appropriated in the form of cash. The appropriations require attendance of over two thirds of Board of Directors members and approval of over the half of attendees. The resolution of Board of Directors shall be reported at the shareholders' meeting. The recipients of aforementioned employees' compensation include eligible employees of subordinate companies who meet the requirements set out by

- t h e B 0 а r d 0 D e с r t s 0
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amountcould be included in the distributable earnings.
  - (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.
- E. The Company recognised dividends distributed to shareholders amounting to \$5,834,548 thousand and \$9,724,246 thousand (\$1.8 (in dollars) and \$3 (in dollars) per share) for the years ended December 31, 2018 and 2017, respectively. On March 21, 2019, the Board of Directors proposed that total dividends for the distribution of earnings for the year of 2018 was \$3,565,557 thousand at \$1.1 (in dollars) per share.
- F. For the information relating to employees' remuneration and directors' and supervisors' remuneration, please refer to Note 6(24).

| Depreciation charges on investment property | \$                              | 24,395     | <u>\$</u>              | 12,308     |  |
| Amortisation charges on intangible assets   | <u>\$</u>                       | 68,823     | <u>\$</u>              | 25,859     |  |

- Note: As of December 31, 2018 and 2017, the Company had 29,240 and 30,833 employees, respectively, of which 7 directors were not the Company's employee.
  - A. According to the Articles of Incorporation of the Company, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 2% for employees' compensation and shall not be higher than 3% for directors' and supervisors' remuneration.
  - B. For the years ended December 31, 2018 and 2017, employees' compensation was accrued at \$101,254 thousand and \$145,330 thousand, respectively; while directors' and supervisors' remuneration was accrued at \$74,978 thousand and \$118,590 thousand, respectively. The aforementioned amounts were recognized in salary expenses.

The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on 2% and 1.481% of distributable profit of current year for the year ended December 31, 2018.

For 2017, the employees' compensation of 2017, as resolved at the meeting of Board of Directors amounting to \$145,330 thousand, was in agreement with those amounts recognized in the 2017 financial statements. The Board of Directors during its meeting resolved to distribute 1.481% of retained earnings as supervisors' remuneration for the year ended December 31, 2017 while the amounts recognized in the financial statements based on 1.632% of retained earnings was \$118,590 thousand for directors' and supervisors' remuneration. The difference in the directors' and supervisors' remuneration for 2017 was \$10,972 thousand. The difference resulted from adjustment of estimated percentage of directors' and supervisors' remuneration which had been adjusted in the profit or loss for 2018. The employees' compensation for 2017 will be distributed in the form of cash. As of March 21, 2019, the employees' compensation for 2017 has not yet been distributed.

Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

D. (i) The China subsidiary that was consolidated in the financial statements was a productive foreign enterprise and established in People's Republic of China and is eligible for local tax incentives. In line with local tax law, the tax rate and applicable tax rate was 15% and 25%, respectively.

(ii) For the years ended December 31, 2018 and 2017, the Company's subsidiary, Cheng Shin (Thailand) and Cheng Shin (Vietnam) are both eligible to avail of the local tax incentives.

E. In 2009, the investment plan of the Company to increase capital for expanding its production of rubber products is qualified for "Five-year tax exemption incentive for investment in the establishment or expansion of manufacturing enterprises or related technical services from July 1, 2008 to December 31, 2009". The Company is entitled to income tax exemption for 5 consecutive years starting from 2014 to 2018.

- F. The Company accrued deferred tax liabilities, taking into account operating result, degree of expansion and dividend policy of each overseas subsidiary. Based on the assessment, the amounts of temporary difference unrecognised as deferred tax liabilities as of December 31, 2018 and 2017 were \$41,486,669 thousand and \$41,912,057 thousand, respectively.
- G. The Company's income tax returns through 2015 have been assessed and approved by the Tax Authority.
- H. Under the amendments to the Income Tax Act which was promulgated by the President of the Republic of China on February 7, 2018, the Company's applicable income tax rate was raised from 17% to 20% effective from January 1, 2018. The Group has assessed the impact of the change in income tax rate.

None.

11. <u>SIGNIFICANT EVENT AFTER THE BALANCE SHEET DATE</u> None.

#### 12. <u>OTHERS</u>

#### (1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the consolidated balance sheet plus net debt.

During the year ended December 31, 2018, the Group's strategy was unchanged from 2017. The gearing ratios at December 31, 2018 and 2017 were as follows:

|  |    | December 31, 2018 |          | December 31, 2017 |
|--|----|-------------------|----------|-------------------|
| Total liabilities                                | \$ | 94,944,762        | \$       | 96,192,952        |
| Total equity                                     | \$ | 79,818,006        | \$       | 82,891,303        |
| Less : Intangible assets                         | (  | 237,050)          | (        | 110,233)          |
| Tangible equity                                  | \$ | 79,580,956        | \$       | 82,781,070        |
| Debt-equity ratio                                |    | 119%              |          | 116%              |

B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programmer focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial position and financial performance.
- (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the board of directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The material financing activities are reviewed by the Board of Directors in accordance with procedures required by relevant regulations and internal control system. During the implementation of financing plans, the Board of Directors is assisted in its oversight role by the internal audit department. Internal audit undertakes both regular and exceptional reviews of risk management controls and procedures, and reports the results to the Board of Directors.
- C. Significant financial risks and degrees of financial risks
  - (a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to foreign exchange risk arising from the transactions of the Company and its subsidiaries used in various functional currency. Primarily with respect to the USD and RMB. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities.
- ii. The Group hedges foreign exchange rate by using forward exchange contracts. However, the Group does not adopt hedging accounting. Details of financial assets or liabilities at fair value through profit or loss.
- iii. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: TWD; other certain

subsidiaries' functional currency: RMB, THB, VND, CAD, IDR, EUR, INR and USD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

iv. The exchange gain (loss) including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2018 and 2017 amounted to (\$587,736) thousand and (\$319,583) thousand, respectively.

#### Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and available-for-sale financial assets. The Group diversifies its portfolio to manage its price risk arising from investments in equity securities.
- ii. Shares issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, equity investments at fair value through other comprehensive income and gain or loss on the available-for-sale equity investments for the years ended December 31, 2018 and 2017 would have increased/decreased by \$811 thousand and \$1,274 thousand, respectively.

Cash flow and fair value interest rate risk

- i. The Group's main interest rate risk arises from long-term and short-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. During the years ended December 31, 2018 and 2017, the Group's borrowings at variable rate were denominated in the TWD, USD, THB, RMB, EUR and INR.
- ii. The Group's borrowings are measured at amortised cost. The rate of borrowings are referred market interest rates and to that extent are also exposed to the risk of future changes in market interest rates.
- iii. At December 31, 2018 and 2017, if interest rates on USD, THB, RMB, EUR and INR denominated borrowings at that date had been 0.1% higher/lower with all other variables held constant, post-tax profit for the years ended December 31, 2018 and 2017 would have been \$39,326 thousand and \$41,423 thousand higher/lower, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.
- (b) Credit risk
  - i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of financial instruments at fair value through profit or loss and at fair value through other comprehensive income.
  - ii. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard receiving and payment and delivery terms and conditions are offered. Internal risk control

assesses the credit quality of the customers, taking into account their financial position, past experience and other factors.

iii. The Group adopts assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:

If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.

iv. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. On December 31, 2018, the provision matrix is as follows:

| December 31, 2018 | Expected loss rate | Tota | book value | Los | ss allowance |
|-------------------|--------------------|------|------------|-----|--------------|
| Without past due  | 0.00%              | \$   | 8,267,534  | \$  | -            |
| Up to 30 days     | 0.28%              |      | 920,577    |     | 2,578        |
| 31 to 90 days     | 0.91%              |      | 348,616    |     | 3,172        |
| 91 to 180 days    | 1.64%              |      | 191,749    |     | 3,145        |
| Over 181 days     | 4.33%              |      | 148,798    |     | 6,448        |
|                   |                    | \$   | 9,877,274  | \$  | 15,343       |

v. Movements in relation to the group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

|                                 |    | 2018   |
|---------------------------------|----|--------|
| At January 1_IAS 39             | \$ | 17,551 |
| Adjustments under new standards |    | -      |
| At January 1_IFRS 9             |    | 17,551 |
| Reversal of impairment loss     | (  | 2,352) |
| Effect of exchange rate changes |    | 144    |
| At December 31                  | \$ | 15,343 |

- vi. Credit risk information of 2017 is provided in Note 12(4).
- (c) Liquidity risk
  - i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and, if applicable external regulatory or legal requirements.
  - ii. Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in interest bearing current accounts and time deposits, choosing instruments with

appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.

iii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

#### December 31, 2018

As of December 31, 2018, there was no financial derivative liabilities transaction.

#### (3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks, beneficiary certificates, is included in Level 1.

- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in most derivative instruments is included in Level 2.
- Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market is included in Level 3.
- B. Fair value information of investment property at cost is provided in Note 6(8).
- C. Financial instruments not measured at fair value
  - (a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, guarantee deposits paid, short-term borrowings, notes payable, accounts payable, other payables, long-term borrowings (including current portion) and guarantee deposits received are approximate to their fair values.

|   |                      | Decembe     | er 31, 2018          |   |
|---|----------------------|-------------|----------------------|---|
|   |                      |             | Fair value           |   |
|   | Carrying amount      | Level 1     | Level 2              | Level 3                                       |
| Financial liabilities:<br>Bonds payable | <u>\$ 21,800,000</u> | <u>\$</u>   | <u>\$ 21,876,771</u> | <u>\$                                    </u> |
|   |                      | Decembe     | er 31, 2017          |   |
|   |                      |             | Fair value           |   |
|   | Carrying amount      | Level 1     | Level 2              | Level 3                                       |
| Financial liabilities:<br>Bonds payable | <u>\$ 18,700,000</u> | <u>\$ -</u> | <u>\$ 18,779,641</u> | <u>\$                                    </u> |

(b) The methods and assumptions of fair value estimate are as follows:

Bonds payable: They are measured at present value, which is calculated based on the cash flow expected to be paid and discounted using a market rate prevailing at balance sheet date, the interest rate of par value was equivalent to market interest rate.

D. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

|   |          |         |    | December | r 31, | 2018    |    |         |

| - Forward exchange contracts  | \$       | -       | \$ | 408      | \$    | -       | \$ | 408     |

(a) The related information of natures of assets and liabilities is as follows:

- (b) The methods and assumptions the Group used to measure fair value are as follows:
  - (i) For Level 1, the Group used market quoted prices as their fair values according to the characteristics of instruments. Listed shares and balanced mutual fund use closing price as their fair values.
  - (ii) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.
  - (iii) Level 2: When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market, interest rate swap contracts, foreign exchange swap contracts and options, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- E. For the years ended December 31, 2018 and 2017, there was no transfer between Level 1 and Level 2.

- F. There was no movement in Level 3 for the years ended December 31, 2018 and 2017.
- (4) Effects on initial application of IFRS 9 and information on application of IAS 39 in 2017 Information of IAS 39
  - A. Summary of significant accounting policies adopted in 2017:
    - (a) Financial assets at fair value through profit or loss
      - i. Financial assets at fair value through profit or loss are financial assets held for trading or financial assets designated as at fair value through profit or loss on initial recognition.
         Financial assets are classified in this category of held for trading if acquired principally for the purpose of selling in the short-term. Derivatives are also categorized as financial assets held for trading unless they are designated as hedges.
      - ii. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
      - iii. Financial assets at fair value through profit or loss are initially recognised at fair value. Related transaction costs are expensed in profit or loss. These financial liabilities are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial liabilities are recognised in profit or loss.
    - (b) Available-for-sale financial assets
      - i. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
      - ii. On a regular way purchase or sale basis, available-for-sale financial assets are recognised and derecognised using trade date accounting.
      - iii. Available-for-sale financial assets are initially recognised at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in other comprehensive income.
    - (c) Receivables

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

- (d) Impairment of financial assets
  - i. The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss

event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

- ii. The criteria that the Company uses to determine whether there is objective evidence of an impairment loss is as follows:
  - (i) Significant financial difficulty of the issuer or debtor;
  - (ii) A breach of contract, such as a default or delinquency in interest or principal payments;
  - (iii) The Company, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;
  - (iv) It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
  - (v) The disappearance of an active market for that financial asset because of financial difficulties;
  - (vi) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
  - (vii) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered;
  - (viii) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
- iii. When the Company assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:
  - (i) Financial assets at amortised cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognised in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortised cost that

would have been at the date of reversal had the impairment loss not been recognised previously. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(ii) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. Impairment loss of an investment in an equity instrument recognised in profit or loss shall not be reversed through profit or loss. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(e) Derivative financial instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. Any changes in the fair value are recognised in profit or loss.

B. The reconciliations of carrying amount of financial assets transferred from December 31, 2017, IAS 39, to January 1, IFRS 9, were as follows:

|   | valu | Measured at fair<br>leasured at fair value through othe<br>value through comprehensive<br>profit or loss income - equity |    | rough other<br>rehensive |    | vailable-for<br>le - equity | Retained<br>earnings Other equity |          |         |
|---|------|--|----|--------------------------|----|-----------------------------|-----------------------------------|----------|---------|
| IAS 39  | \$   | -  | \$ | -                        | \$ | 127,375                     | \$-                               | \$       | 41,593  |
| Transferred into and measured at<br>fair value through profit or loss<br>Transferred into and<br>measured at fair value |      | 41,670   |    | -                        | (  | 41,670)                     | 22,740                            | (        | 22,740) |
| through other comprehensive   |      |  |    | 95 705                   | (  | 95 705)                     |                                   |          |         |
| income - equity   |      |  |    | <u>85,705</u>            | Ĺ  | 85,705)                     |                                   | <u> </u> |         |
| IFRS 9  | \$   | 41,670   | \$ | 85,705                   | \$ | -                           | \$22,740                          | \$       | 18,853  |

- (a) Under IAS 39, because the equity instruments, which were classified as: available-for-sale financial assets amounting to \$85,705 thousand, respectively, were not held for the purpose of trading, they were reclassified as "financial assets at fair value through other comprehensive income (equity instruments)" amounting to \$85,705 thousand.
- (b) Under IAS 39, the equity instruments, which were classified as: available-for-sale financial assets amounting to \$41,670 thousand, respectively, were reclassified as "financial assets at fair value through profit or loss (equity instruments)" amounting to \$41,670 thousand. Additionally, the Group increased retained earnings and decreased other equity in the

amounts of \$22,740 thousand and \$22,740 thousand, respectively.

- C. The significant accounts for the year ended December 31, 2017 is as follows:
  - (a) Financial assets and liabilities at fair value through profit or loss

| Items                                  | December 31, 2017 |     |  |
|--|-------------------|-----|--|
| Current items:                         |                   |     |  |
| Financial liabilities held for trading |                   |     |  |
| Forward foreign exchange contracts     | \$                | 408 |  |
|  |                   |     |  |

- i. The Group recognized net profit amounting to \$2,538 thousand, on financial assets at fair value through profit or loss for the year ended December 31, 2017.
- ii. The non-hedging derivative instruments transaction and contract information are as follows :

|                                    | December 31, 2017    |                 |  |  |
|------------------------------------|----------------------|-----------------|--|--|
|                                    | Contract amount      |                 |  |  |
| Types of instrument                | (Notional principal) | Contract period |  |  |
| Current items:                     |                      |                 |  |  |
| Forward foreign exchange contracts |                      | 2017.11.23~     |  |  |
| USD converted to NTD               | USD 6 million        | 2018.1.29       |  |  |

The Group entered into forward foreign exchange contracts to sell USD to hedge exchange rate risk of import (export) proceeds. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

(b)Available-for-sale financial assets

| Items                               | December 31, 2017 |        |  |
|-------------------------------------|-------------------|--------|--|
| Current items:                      |                   |        |  |
| Listed stocks                       | \$                | 8,665  |  |
| Funds                               |                   | 18,930 |  |
| Subtotal                            |                   | 27,595 |  |
| Available-for-sale financial assets |                   |        |  |
| Valuation adjustment                |                   | 41,593 |  |
| Total                               | \$                | 69,188 |  |
| Non-current items:                  |                   |        |  |
| Unlisted shares                     | \$                | 58,187 |  |

The Group recognised \$3,041 thousand in other comprehensive income for fair value change and reclassified (\$12,267) thousand from equity to profit or loss for the year ended December 31, 2017.

- D. Credit risk information for the year ended December 2017 is as follows :
  - (a) Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, including outstanding receivables and commitments.
  - (b) For the year ended December 31, 2017, no credit limits were exceeded during the reporting periods, and management does not expect any significant losses from non-performance by these counterparties.
  - (c) The credit quality of accounts receivable that were neither past due nor impaired was in the following counterparties categories based on the Group's Credit Quality Control Policy:

|                      | Dece | mber 31, 2017 |
|----------------------|------|---------------|
| Distributor          | \$   | 3,305,277     |
| Car assembly factory |      | 4,461,585     |
| Others               |      | 283,334       |
|                      | \$   | 8,050,196     |

(d) The ageing analysis of accounts receivable that were past due but not impaired is as follows:

......

|                | Dece | ember 31, 2017 |
|----------------|------|----------------|
| Up to 30 days  | \$   | 1,297,167      |
| 31 to 90 days  |      | 377,313        |
| 91 to 180 days |      | 102,816        |
| Over 181 days  |      | 42,644         |
|                | \$   | 1,819,940      |

The above ageing analysis was based on past due date.

- (e) Movement analysis of financial assets that were impaired is as follows:
  - i. As of December 31, 2017, the Group's accounts receivable that were impaired amounted to \$17,551 thousand.
  - ii. Movements in the provision for impairment of accounts receivable are as follows:

|                    | Year ended December 31, 2017 |                      |    |                 |    |        |  |
|--------------------|------------------------------|----------------------|----|-----------------|----|--------|--|
|                    | Individual provisi           | Individual provision |    | Group provision |    | Total  |  |
| At January 1       | \$                           | -                    | \$ | 12,944          | \$ | 12,944 |  |
| Provision for      |                              |                      |    |                 |    |        |  |
| impairment         |                              | -                    |    | 4,808           |    | 4,808  |  |
| Effect of exchange |                              |                      |    |                 |    |        |  |
| rate changes       |                              | _                    | (  | 201)            | (  | 201)   |  |
| At December 31     | \$                           | -                    | \$ | 17,551          | \$ | 17,551 |  |

- (5) Effects of initial application of IFRS 15 and information on application of IAS 18 in 2017
  - A. The significant accounting policies applied on revenue recognition for the year ended December 31, 2017 are set out below.

Sales of goods

The Group manufactures and sells tire products. Revenue is measured at the fair value of the consideration received or receivable taking into account of business tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities. Revenue arising from the sales of goods should be recognized when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

B. The effects and description of current balance sheets items if the Group continues adopting above accounting policies are as follows:

|                           | December 31, 2018 |               |                                      |         |                         |          |  |

#### 13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information

- A. Loans to others: please refer to table 1.
- B. Provision of endorsements and guarantees to others: please refer to table 2.
- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): please refer to table 3.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: please refer to table 4.
- E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in capital or more: please refer to table 5.
- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: please refer to table 6.
- I. Trading in derivative instruments undertaken during the reporting periods: please refer to Notes 6 (2),6(22) and 12(2),12(3), 12(4).
- J. Significant inter-company transactions during the reporting periods: please refer to table 7.

#### (2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China) : please refer to table 8.

(3) Information on investments in Mainland China

A. Basic information: please refer to table 9.

- B. Ceiling on investments in Mainland China: please refer to table 9.
- C. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area:

Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area for the year ended December 31, 2018: please refer to tables 5, 6 and 7.

#### 14. SEGMENT INFORMATION

(1) General information

Management has determined the reportable operating segments based on the reports reviewed by the Chief Operating Decision-Maker that are used to make strategic decisions. Business organization is divided into Cheng Shin (Taiwan), MAXXIS (Taiwan) Trading, Cheng Shin (Xiamen), Cheng Shin (China), Petrel (Xiamen), Cheng Shin (Thailand) and other segments based on the nature of each company. The Group's revenue is mainly from manufacturing and sales of bicycle tires, electrical vehicle tires, reclaimed rubber, etc.

(2) Measurement of segment information

The Group's segment profit (loss) is measured with the profit (loss) before tax, which is used as a basis for the Group in assessing the performance of the operating segments. The accounting

policies of the operating segments are in agreement with the significant accounting policies summarized in Note 4.

#### (3) Information about segment profit or loss, assets and liabilities

The segment information provided to the Chief Operating Decision-Maker for the reportable segments for the years ended December 31, 2018 and 2017 is as follows:

|                        | Year ended December 31, 2018 |   |   |   |               |                      |

| Income from continuing operations before income tax   | \$                      | 5,909,641  | \$ | 8,381,869 |  |

#### (5) Information on products and services

Revenue from external customers is mainly from processing, manufacturing and trading of bicycle tires, electrical vehicle tires, reclaimed rubber, various rubbers and resin and other rubber products. Details of revenue is as follows:

|               | Year ended Dec | cember 31, 2018 | Year ended Dec | ember 31, 2017 |
|---------------|----------------|-----------------|----------------|----------------|
| Sales revenue | \$             | 109,221,209     | \$             | 112,309,166    |

#### (6) Geographical information

Geographical information for the years ended December 31, 2018 and 2017 is as follows:

|        | Year ended Dec | cember 31, 2018 | Year ended Dec | cember 31, 2017 |
|--------|----------------|-----------------|----------------|-----------------|
|        |                | Non-current     |                | Non-current     |
|        | Revenue        | assets          | Revenue        | assets          |
| China  | \$ 56,169,587  | \$ 64,643,608   | \$ 58,597,100  | \$ 67,756,611   |
| USA    | 8,009,491      | 463,486         | 8,286,535      | 454,745         |
| Taiwan | 6,442,146      | 16,738,242      | 6,873,376      | 16,191,635      |
| Others | 38,599,985     | 28,156,552      | 38,552,155     | 26,711,474      |
|        | \$109,221,209  | \$110,001,888   | \$112,309,166  | \$111,114,465   |

The Company's geographical revenue is calculated based on the countries where sales incur. Non-current assets refer to property, plant and equipment, investment property, intangible asset (shown as other non-current asset), land use right (shown as other non-current asset) and guarantee deposits paid (shown as other non-current asset), but exclude financial instruments and deferred income tax assets.

#### (7) Major customer information

None of the revenue from any single customer has exceeded 10% of the revenue in the consolidated comprehensive income statement for the years ended December 31, 2018 and 2017.

6.5 Individual Consolidated Financial Statements Duly Audited By The Certified Public Accountants In Recent Years

#### CHENG SHIN RUBBER IND. CO., LTD

#### PARENT COMPANY ONLY FINANCIAL STATEMENTS AND REPORT OF INDEPENDENT ACCOUNTANTS DECEMBER 31, 2018 AND 2017

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

\_\_\_\_\_

#### REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

#### PWCR 18004212

To the Board of Directors and Shareholders of Cheng Shin Rubber Ind. Co., Ltd.

#### **Opinion**

We have audited the accompanying balance sheets of Cheng Shin Rubber Ind. Co., Ltd. (the "Company") as at December 31, 2018 and 2017, and the related statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the report of other independent accountants (please refer to the "other matter" section of our report), the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2018 and 2017, and its financial performance and its cash flows for the years then ended in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

#### **Basis for opinion**

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained and the report of other independent accountants are sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Company's financial statements of the current period are stated as follows:

#### Appropriateness of cut-off on sales revenue

#### Description

For the accounting policy of revenue recognition, please refer to Note 4(29). For the years ended December 31, 2018, the sales revenue amounted to NT\$19,374,623 thousand.

The Company's main business is the manufacturing and sales of various tires and rubber products. The main sources of sales revenue are from the assembly plant and dealers. In accordance with the contract terms with the assembly plant, as inspections are completed in the assembly plant, the transfer of control to the merchandise is completed and sales revenue is recognised. The sales revenue recognition process involves many manual controls and adjustments are likely to occur. As a result, the timing of sales revenue recognition could be inappropriate. The aforementioned issue arises from the Company's subsidiaries, recognised under investments accounted for using equity method. Therefore, we included the appropriateness of cut-off on sales revenue of the Company as one of the key areas of focus for this year.

#### How our audit addressed the matter

The procedures that we have conducted in response to the above key audit matter are summarized as follows:

1. We obtained an understanding of the Company's sales revenue cycle, reviewed internal control process and contracts of assembly plant sales in order to assess the effectiveness of managements'

control of revenue recognition on assembly plant sales.

- 2. We tested the Company's sales transactions around the year-end date to check whether assembly plant sales are recorded in the proper period. We also tested whether changes in inventory and cost of goods sold were carried over and recorded in the proper period in order to assess the appropriateness of cut-off on sales revenue.
- 3. We tailored our audit over sales cut-off through accounts receivable testing based on the confirmation procedures in order to check whether sales revenue and accounts receivable are recorded in the proper period.

#### Timing of reclassification of unfinished construction and uninspected equipment to property, plant and equipment.

#### Description

For the accounting policy of property, plant and equipment, please refer to Note 4(14). For the details of property, plant and equipment, please refer to Note 6(7). As of December 31, 2018, the unfinished construction and equipment under acceptance amounted to NT\$1,053,091 thousand.

To maintain market competitiveness, the Company continuously replaces old production lines with new ones and incurs significant amounts of capital expenditures every year. The unfinished construction and uninspected equipment are measured at cost. When the finished construction's inspection report is issued and the uninspected equipment is ready for use, they are reclassified to property, plant and equipment and starts accrual of depreciation expense. The inspection process involves human judgement, thus, the timing of reclassification and accrual of depreciation expense could be inappropriate. Therefore, we indicated that the audit of timing of depreciation recognition after reclassification of unfinished construction and uninspected equipment to property, plant and equipment as one of the key areas of focus for this year.

#### How our audit addressed the matter

The procedures that we have conducted in response to the above key audit matter are summarized as follows:

- 1. We obtained an understanding of the Company's property, plant and equipment process cycle, reviewed internal control process and purchase contracts of property, plant and equipment in order to assess the effectiveness of managements' control of timing of reclassification of unfinished construction and uninspected equipment to property, plant and equipment.
- 2. We tailored our audit over fixed asset classification to check whether reclassification of assets are correct and recorded in the proper period.
- 3. We verified the status of unfinished construction and uninspected equipment and assessed the reasonableness of the recognition of unfinished construction and uninspected equipment.

#### Other matter – Scope of the Audit

We did not audit the financial statements of certain investments recognised under the equity method that are included in the financial statements. The balances of investments accounted for under equity method were NT\$2,828,988 thousand and NT\$2,569,911 thousand, both representing 2% of total assets as of December 31, 2018 and 2017, respectively; and the share of profit of subsidiaries, associates and joint ventures accounted for using equity method were NT\$690,601 thousand and NT\$679,796 thousand, representing 24% and 14% of the total comprehensive income for the years then ended, respectively. Those financial statements were audited by other independent accountants whose report thereon have been furnished to us, and our opinion expressed herein is based solely on the audit reports of the other independent accountants.

#### Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Company's financial reporting process.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not

detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The accompanying notes are an integral part of these parent company only financial statements.

#### CHENG SHIN RUBBER IND. CO., LTD NOTES TO THE PARENT COMPANY ONLY FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2018 AND 2017

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

#### 1. HISTORY AND ORGANIZATION

Cheng Shin Rubber Ind. Co., Ltd. (the "Company") was incorporated on December 1969 and is primarily engaged in: (a) Processing, manufacturing and trading of bicycle tires, electrical vehicle tires, reclaimed rubber, various rubbers and resin and other rubber products. (b) Manufacturing and trading of various rubber products and relevant rubber machinery. The Company has been listed on the Taiwan Stock Exchange starting from December 1987.

#### 2. <u>THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE PARENT COMPANY ONLY</u> <u>FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION</u>

These parent company only financial statements have been authorized for issuance by the Board of Directors on March 21, 2019.

- 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS
  - (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC") New standards, interpretations and amendments endorsed by the FSC effective from 2018 are as follows:

|   | Effective date by        |
|---|--------------------------|
|   | International Accounting |
| New Standards, Interpretations and Amendments   | Standards Board          |
| Amendments to IFRS 2, 'Classification and measurement of share-based payment transactions'      | January 1, 2018          |
| Amendments to IFRS 4, 'Applying IFRS 9, Financial instruments with IFRS 4, Insurance contracts' | January 1, 2018          |
| IFRS 9, 'Financial instruments'   | January 1, 2018          |
| IFRS 15, 'Revenue from contracts with customers'  | January 1, 2018          |
| Amendments to IFRS 15, 'Clarifications to IFRS 15, Revenue from contracts with customers'       | January 1, 2018          |
| Amendments to IAS 7, 'Disclosure initiative'  | January 1, 2017          |
| Amendments to IAS 12, 'Recognition of deferred tax assets for unrealised losses'                | January 1, 2017          |
| Amendments to IAS 40, 'Transfers of investment property'  | January 1, 2018          |
| IFRIC 22, 'Foreign currency transactions and advance consideration'                             | January 1, 2018          |

|  | Effective date by<br>International Accounting |
|--|---|
| New Standards, Interpretations and Amendments                        | Standards Board                               |
| Annual improvements to IFRSs 2014-2016 cycle- Amendments to IFRS 1,  | January 1, 2018                               |
| 'First-time adoption of International Financial Reporting Standards' |   |
| Annual improvements to IFRSs 2014-2016 cycle- Amendments to IFRS 12, | January 1, 2017                               |
| 'Disclosure of interests in other entities'                          |   |
| Annual improvements to IFRSs 2014-2016 cycle- Amendments to IAS 28,  | January 1, 2018                               |
| 'Investments in associates and joint ventures'                       |   |

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment. The quantitative impact is detailed as follows:

A. IFRS 9, 'Financial instruments'

- (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortised cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.
- (b) The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognise 12-month expected credit losses or lifetime expected credit losses (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument that has objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount (i.e. net of credit allowance). The Company shall always measure the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component.
- (c) The Company has elected not to restate prior period financial statements using the modified retrospective approach under IFRS 9. For details of the significant effect as at January 1, 2018, please refer to Note 12(4) B.
- B. IFRS 15, 'Revenue from contracts with customers'
  - (a) IFRS 15, 'Revenue from contracts with customers' replaces IAS 11 'Construction contracts', IAS 18 'Revenue' and relevant interpretations. According to IFRS 15, revenue is recognised when a customer obtains control of promised goods or services. A customer obtains control of goods or services when a customer has the ability to direct the use of, and obtain

substantially all of the remaining benefits from, the asset.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with that core principle by applying the following steps:

Step 1: Identify contracts with customer.

Step 2: Identify separate performance obligations in the contract(s).

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price.

Step 5: Recognise revenue when the performance obligation is satisfied.

Further, IFRS 15 includes a set of comprehensive disclosure requirements that requires an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

- (b) The Company has elected not to restate prior period financial statements and recognised the cumulative effect of initial application as retained earnings at January 1, 2018, using the modified retrospective approach under IFRS 15. The significant effects of adopting the modified transition as of January 1, 2018 are summarised below:
  - i. Presentation of assets and liabilities in relation to contracts with customers

In line with IFRS 15 requirements, the Company changed the presentation of certain accounts in the balance sheet as follows:

Under IFRS 15, liabilities are recognised as contract liabilities, but were previously presented as advance sales receipts (shown as other current liabilities) in the balance sheet. As of January 1, 2018, the balance amounted to \$85,231 thousand.

ii. Please refer to Note 12(5) for disclosures in relation to the first application of IFRS 15.

C. Amendments to IAS 7, 'Disclosure initiative'

This amendment requires that an entity shall provide more disclosures related to changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. The Company expects to provide additional disclosure to explain the changes in liabilities arising from financing activities.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2019 are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                                | Standards Board          |
| Amendments to IFRS 9, 'Prepayment features with negative compensation'       | January 1, 2019          |
| IFRS 16, 'Leases'  | January 1, 2019          |
| Amendments to IAS 19, 'Plan amendment, curtailment or settlement'            | January 1, 2019          |
| Amendments to IAS 28, 'Long-term interests in associates and joint ventures' | January 1, 2019          |
| IFRIC 23, 'Uncertainty over income tax treatments'                           | January 1, 2019          |
| Annual improvement to IFRSs 2015-2017 cycle                                  | January 1, 2019          |
| The above standards and interpretations have no significant impact to the    | e Company's financial    |
| condition and financial performance based on the Company's assessment.       |                          |

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

|  | Effective date by  |
|--|--|
|  | International Accounting   |
| New Standards, Interpretations and Amendments  | Standards Board  |
| Amendment to IAS 1 and IAS 8, 'Disclosure Initiative-Definition of Material'   | January 1, 2020  |
| Amendment to IFRS 3, 'Definition of a business'  | January 1, 2020  |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets<br>between an investor and its associate or joint venture' | To be determined by<br>International Accounting<br>Standards Board |
| IFRS 17, 'Insurance contracts'   | January 1, 2021  |

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of the parent company only financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The accompanying parent company only financial statements are prepared in conformity with "Regulations Governing the Preparation of Financial Reports by Securities Issuers".

#### (2) Basis of preparation

- A. Except for the following items, the parent company only financial statements have been prepared under the historical cost convention:
  - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
  - (b) Financial assets at fair value through other comprehensive income/Available-for-sale financial assets measured at fair value.

- (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.
- C. In adopting IFRS 9 and IFRS 15 effective January 1, 2018, the Company has elected to apply modified retrospective approach whereby the cumulative impact of the adoption was recognised as retained earnings or other equity as of January 1, 2018 and the financial statements for the year ended December 31, 2017 were not restated. The financial statements for the year ended December 31, 2017 were prepared in compliance with International Accounting Standard 39 ('IAS 39'), International Accounting Standard 11 ('IAS 11'), International Accounting Standard 18 ('IAS 18') and related financial reporting interpretations. Please refer to Notes 12(4) and (5) for details of significant accounting policies and details of significant accounts.
- (3) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The accompanying parent company only financial statements are presented in New Taiwan dollars, which is the Company's functional currency.

- A. Foreign currency transactions and balances
  - (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
  - (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
  - (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured

at fair value are translated using the historical exchange rates at the dates of the initial transactions.

- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.
- B. Translation of foreign operations

The operating results and financial position of all the Company entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognized in other comprehensive income.
- (4) Classification of current and non-current items
  - A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
    - (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
    - (b) Assets held mainly for trading purposes;
    - (c) Assets that are expected to be realized within twelve months from the balance sheet date;
    - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
  - B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
    - (a) Liabilities that are expected to be paid off within the normal operating cycle;
    - (b) Liabilities arising mainly from trading activities;
    - (c) Liabilities that are to be paid off within twelve months from the balance sheet date;
    - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- (5) <u>Cash equivalents</u>

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

#### (6) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Company subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Company recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.
- (7) Financial assets at fair value through other comprehensive income
  - A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
    - (a) The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
    - (b) The assets' contractual cash flows represent solely payments of principal and interest.
  - B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
  - C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:
    - (a) The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.
    - (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognised in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss.
- (8) Accounts and notes receivable
  - A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.

- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (9) Impairment of financial assets

The Company measured the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component on every balance sheet dates.

(10) Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(11) Lease receivables/ leases (lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(12) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

- (13) Investments accounted for using equity method / subsidiaries and associates
  - A. Subsidiaries are all entities (including structured entities) controlled by the Company. The Company controls an entity when the Company is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
  - B. Unrealized gains or losses on transactions between the Company and subsidiaries have been eliminated. Accounting policies of the subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
  - C. The Company's share of subsidiaries' post-acquisition profit or loss is recognized in the statement of comprehensive income, and its share of subsidiaries' post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in a subsidiary equals to or exceeds its interest in the subsidiary, the Company shall recognize the loss proportional to its shares.
  - D. Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.

- E. When the Company loses control of a subsidiary, the Company remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Company loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss or liabilities are disposed of.
- F. Associates are all entities over which the Company has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- G. The Company's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- H. When changes in an associate's equity that are not recognized in profit or loss or other comprehensive income of the associate and such changes not affecting the Company's ownership percentage of the associate, the Company recognizes the Company's share of change in equity of the associate in 'capital surplus' in proportion to its ownership.
- I. Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Company.
- J. When the Company disposes its investment in an associate, if it loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it still retains significant influence over this associate, then the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.
- K. According to the Regulations Governing the Preparation of Financial Reports by Securities Issuers, net income and other comprehensive income in the parent company only financial

statements shall use the same allotments as the ones that are attributable to owners of the parent in the consolidated financial statements. Equity in parent company only financial statements should equal to equity attributable to owners of the parent in the consolidated financial statements.

- (14) Property, plant and equipment
  - A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
  - B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
  - C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. If each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
  - D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:
    - (a) Buildings:  $5 \sim 60$  years
    - (b) Machinery and equipment: 15 years
    - (c) Test equipment: 5 years
    - (d) Transportation equipment: 6 years
    - (e) Office equipment: 5 years
    - (f) Other assets: 5 years

#### (15) <u>Investment property</u>

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of  $5 \sim 55$  years.

(16) <u>Intangible assets</u>

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 2 to 5 years.

(17) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where

there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

#### (18) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

#### (19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (20) Financial liabilities at fair value through profit or loss
  - A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges.
  - B. At initial recognition, the Company measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Company subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.
- (21) Bonds payable

Ordinary corporate bonds issued by the Company are initially recognised at fair value less transaction costs. Any difference between the proceeds (net of transaction costs) and the redemption value is presented as an addition to or deduction from bonds payable, which is amortised to profit or loss over the period of bond circulation using the effective interest method as an adjustment to 'finance costs'.

(22) Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(23) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(24) Financial guarantee contracts

A financial guarantee contract is a contract that requires the Company to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in

accordance with the original or modified terms of a debt instrument. A financial guarantee contract is initially recognized at its fair value adjusted for transaction costs on the trade date. After initial recognition, the financial guarantee is measured at the higher of the initial fair value less cumulative amortization and the best estimate of the amount required to settle the present obligation on each balance sheet date.

# (25) <u>Non-hedging derivatives</u>

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

# (26) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

# B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

# (b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Company uses interest rates of government bonds (at the balance sheet date) instead.
- ii. Remeasurement arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- C. Employees', directors' and supervisors' remuneration

Employees' remuneration and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal obligation or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

- (27) Income tax
  - A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
  - B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
  - C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
  - D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
  - E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the liability simultaneously.
  - F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against

which the unused tax credits can be utilized.

# (28) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities.

(29) <u>Revenue recognition</u>

Sales of goods

- A. The Company manufactures and sells various tire and rubber products. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied.
- B. Sales revenue of the Company, which mainly consists of sale of various tires and rubber products, was recognised based on the contract price net of sales discount and price break. Accumulated experience is used to estimate and provide for the sales discounts and allowances and price break, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognised for expected sales discounts and allowances and price break payable to customers in relation to sales made until the end of the reporting period. The sales are usually made with a credit term of 30 ~90 days. As the time interval between the transfer of committed goods or service and the payment of customer does not exceed one year, the Company does not adjust the transaction price to reflect the time value of money.
- C. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

# 5. <u>CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF</u> <u>ASSUMPTION UNCERTAINTY</u>

The preparation of the parent company only financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. There are no critical

accounting judgement, estimates and assumptions uncertainty for the year ended December 31, 2018.

### 6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

|                                  | Dece | ember 31, 2018 | Dece | ember 31, 2017 |
|----------------------------------|------|----------------|------|----------------|
| Cash on hand and revolving funds | \$   | 550            | \$   | 550            |
| Checking deposit                 |      | 2,981          |      | 3,420          |
| Demand deposits                  |      | 4,535,243      |      | 1,076,622      |
| Foreign currency deposit         |      | 3,557,974      |      | 3,776,691      |
| Time deposits                    |      | 4,723,387      |      | 7,145,390      |
|                                  | \$   | 12,820,135     | \$   | 12,002,673     |
| Interest rate range              |      |                |      |                |
| Time deposits                    | 2.   | 70%~3.68%      | 1.   | 60%~4.58%      |

A.The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Company has reclassified pledged time deposits to 'other current assets'. Please refer to Note 8 for details.

(2) Financial assets and financial liabilities at fair value through profit or loss

| Items                              | Decem | ber 31, 2018 |
|------------------------------------|-------|--------------|
| Current items:                     |       |              |
| Financial assets held for trading  |       |              |
| Forward foreign exchange contracts | \$    | 3,243        |
|                                    |       |              |

For the year ended December 31, 2018, the Company recognised net gain of \$4,703 thousand on financial assets held for trading.

B. The non-hedging derivative instruments transaction and contract information are as follows:

|                                       | December             | 31, 2018        |
|---------------------------------------|----------------------|-----------------|
|                                       | Contract amount      |                 |
| Derivative instruments                | (Notional principal) | Contract period |
| Current items:                        |                      |                 |
| Forward foreign<br>exchange contracts |                      | 2018/11/2~      |
| ( USD exchange to NTD)                | USD 18,000 thousand  | 2019/2/12       |

The Company entered into forward foreign exchange contracts to sell USD to hedge exchange rate risk of import (export) proceeds. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

- C. Information relating to credit risk of financial assets and liability at fair value through profit or loss is provided in Note 12(2).
- D. Information on financial liabilities at fair value through profit or loss as of December 31, 2017 is provided in Note 12(4).

#### (3) Financial assets at fair value through other comprehensive income

| Items                | Decem | ber 31, 2018 |
|----------------------|-------|--------------|
| Current items:       |       |              |
| Equity instruments   |       |              |
| Listed stocks        | \$    | 8,665        |
| Valuation adjustment |       | 14,221       |
| Total                | \$    | 22,886       |
| Non-current items:   |       |              |
| Equity instruments   |       |              |
| Unlisted stocks      | \$    | 58,187       |

A. The Company has elected to classify equity instruments investments that are considered to be steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$81,073 thousand as at December 31, 2018.

B. Amounts recognised in other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

|  |     | December 31, 201 | 8      |
|--|-----|------------------|--------|
| Equity instruments at fair value through other |     |                  |        |
| comprehensive income                           |     |                  |        |
| Fair value change recognised in other          |     |                  |        |
| comprehensive income                           | (\$ |                  | 4,633) |

- C. Information relating to credit risk of financial assets at fair value through other comprehensive income is provided in Note 12(2).
- D. Information on available-for-sale financial assets as of December 31, 2017 is provided in Note 12(4).
- (4) Notes and accounts receivables

|                      | Dece | mber 31, 2018 | Dece | mber 31, 2017 |
|----------------------|------|---------------|------|---------------|
| Notes receivable     | \$   | 37,294        | \$   | 32,780        |
| Less: Loss allowance | (    | 9,277)        | (    | 9,277)        |
|                      | \$   | 28,017        | \$   | 23,503        |
| Accounts receivable  | \$   | 1,263,211     | \$   | 1,192,846     |
| Less: Loss allowance | (    | 11,718)       | (    | 11,718)       |
|                      | \$   | 1,251,493     | \$   | 1,181,128     |

A. The ageing analysis of accounts receivable and notes receivable that were past due but not impaired is as follows:

|                  | <br>December    | 31, | 2018          | <br>December    | : 31, 2 | 2017          |
|------------------|-----------------|-----|---------------|-----------------|---------|---------------|
|                  | Accounts        |     |               | Accounts        |         |               |
|                  | receivable      | Not | es receivable | receivable      | Note    | es receivable |
| Without past due | \$<br>1,000,756 | \$  | 37,294        | \$<br>942,265   | \$      | 32,780        |
| Up to 30 days    | 157,646         |     | -             | 194,639         |         | -             |
| 31 -90 days      | 58,719          |     | -             | 40,979          |         | -             |
| 91 -180 days     | 44,101          |     | -             | 14,106          |         | -             |
| Over 180 days    | <br>1,989       |     |               | <br>857         |         |               |
|                  | \$<br>1,263,211 | \$  | 37,294        | \$<br>1,192,846 | \$      | 32,780        |

The above ageing analysis was based on past due date.

B. Information relating to credit risk of accounts receivable and notes receivable is provided in Note 12(2).

- A. In order to fulfil its capital and repay long-term and short-term loans, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by the Taipei Exchange on July 16, 2018 and completed on July 25, 2018. The bonds were fully issued and total issuance amount was \$5 billion with a coupon rate of 0.87%. The issuance period of the bonds is 5 years, which is from July 25, 2018 and July 25, 2023. The terms are as follows:
  - (a) Interest accrued/paid:

The interest is accrued/paid at a single rate annually from the issue date.

(b) Redemption:

The principal of the corporate bond will be redeemed at 50% of the total amount after four and five years from the issue date.

- B. In order to fulfil its capital and repay long-term and short-term loans, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by the Taipei Exchange on August 1, 2017 and completed on August 10, 2017. The bonds were fully issued and total issuance amount was \$7 billion with a coupon rate of 1.03%. The issuance period of the bonds is 5 years, which is from August 10, 2017 to August 10, 2022. The terms are as follows:
  - (a) Interest accrued/ paid:

The interest is accrued/ paid at a single rate annually from the issue date.

(b) Redemption:

The principal of the corporate bond will be redeemed at 50% of the total amount after four and five years from the issue date.

C. In order to fulfil its capital and repay long-term and short-term loans, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by the Taipei Exchange on September 13, 2016 and completed on September 26, 2016. The bonds were fully issued and total issuance amount was \$5 billion with a coupon rate of 0.71%. The issuance period of the bonds is 5 years, which is from

September 26, 2016 to September 26, 2021. The terms are as follows:

(a) Interest accrued/ paid:

The interest is accrued/ paid at a single rate annually from the issue date.

(b) Redemption:

The principal of the corporate bond will be redeemed at 50% of the total amount after four and five years from the issue date.

- D. In order to meet operating capital requirements, repay debts and improve the financial structure, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by FSC on June 6, 2014 and completed on July 18, 2014. The bonds were fully issued and total issuance amount was \$4.8 billion with a coupon rate of 1.40%. The issuance period of the bonds was 5 years, which is from July 18, 2014 to July 18, 2019. The terms are as follows:
  - (a) Interest accrued/ paid:

The interest is accrued/ paid at a single rate annually from the issue date.

(b) Redemption:

The corporate bonds will be redeemed in full amount at the maturity date.

- E. In order to fulfil its capital and repay long-term and short-term loans, the Board of Directors of the Company has resolved to issue domestic unsecured bonds ("the bonds"). The bond issuance has been approved by FSC on May 20, 2013 and completed on August 19, 2013. The bonds were fully issued and total issuance amount was \$3.8 billion with a coupon rate of 1.55%. The issuance period of the bonds was 5 years, which is from August 19, 2013 to August 19, 2018. The terms are as follows:
  - (a) Interest accrued/ paid:

The interest is accrued/ paid at a single rate annually from the issue date.

(b) Redemption:

The principal of the corporate bond will be redeemed at 50% of the total amount after four and five years from the issue date.

#### (13) Long-term borrowings

|   | Borrowing period  | Interest rate          |                           | De        | cember 31,              |

According to the borrowing contract, the Company shall calculate the financial ratios based on the audited annual financial statements (non-consolidated and consolidated) and the reviewed semi-annual consolidated financial statements. The financial ratios shall be maintained as follows: at least 100% for current ratio, no more than 200% for debt-to-equity ratio, at least 150% for debt-service coverage ratio. The financial ratios as assessed in the financial statements have met the abovementioned requirements for the years ended December 31, 2018 and 2017.

# (14) Pensions

A. (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law,

covering all regular employees' including commissioned managers service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions to cover the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

|  | Dece | ember 31, 2018 | Dece | mber 31, 2017 |
|--|------|----------------|------|---------------|
| Present value of defined benefit obligations | \$   | 1,389,880      | \$   | 1,475,833     |
| Fair value of plan assets                    | (    | 680,510)       | ()   | 721,893)      |
| Net defined benefit liability                | \$   | 709,370        | \$   | 753,940       |

| Balance at December 31   | \$                                     | 1,475,833                | ( <u>\$</u> | 721,893)                | \$  | 753,940               |

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earning is less than aforementioned rates, government shall make payment for the deficit after authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS19 paragraph 142. The constitution of fair value of plan assets as of December 31, 2018 and 2017 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

For the years ended December 31, 2018 and 2017, the actual return on plan assets was \$29,976 thousand and \$7,839 thousand.

(e) The principal actuarial assumptions used were as follows:

|                         | 2018  | 2017  |
|-------------------------|-------|-------|
| Discount rate           | 1.00% | 1.10% |
| Future salary increases | 3.00% | 3.00% |

Future mortality rate was estimated based on the 5th Taiwan Standard Ordinary Experience Mortality Table.

Sensitivity analysis of the effect on present value of defined benefit obligation due from the changes of main actuarial assumptions was as follows:

|                            | Discou               | unt rate       | Future salary increases |                      |  |
|----------------------------|----------------------|----------------|-------------------------|----------------------|--|
| December 31, 2018          | Increase 0.25%       | Decrease 0.25% | Increase 0.25%          | Decrease 0.25%       |  |
| Effect on present value of |                      |                |                         |                      |  |
| defined benefit obligation | ( <u>\$ 35,158</u> ) | \$ 36,534      | \$ 32,433               | ( <u>\$ 31,436</u> ) |  |
| December 31, 2017          |                      |                |                         |                      |  |
| Effect on present value of |                      |                |                         |                      |  |
| defined benefit obligation | ( <u>\$ 38,553</u> ) | \$ 40,106      | \$ 35,767               | ( <u>\$ 34,629</u> ) |  |

The sensitivity analysis above is based on other conditions are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculate net pension liability in the balance sheet are the same.

- (f) Expected contributions to the defined benefit pension plans of the Company for the year ended December 31, 2019 amounts to \$34,706 thousand.
- (g) As of December 31, 2018, the weighted average duration of that retirement plan is 11 years. The analysis of timing of the future pension payment was as follows:

| Within 1 year | \$<br>130,181 |
|---------------|---------------|
| 2-5 year(s)   | 252,082       |
| Over 6 years  | <br>387,343   |
|               | \$<br>769,606 |

B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined

contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The pension costs under defined contribution pension plans of the Company for the years ended December 31, 2018 and 2017 were \$145,048 thousand and \$130,895 thousand, respectively.

# (15) Share capital

As of December 31, 2018, the Company's authorized capital and paid-in capital were both \$32,414,155 thousand, and all proceeds from shares issued have been collected.

# (16) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

# (17) <u>Retained earnings</u>

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. The remainder, if any, shall be distributed as employees' bonus and directors' and supervisors' remuneration. The ratio shall not be lower than 2% for employees' bonus and shall not be higher than 3% for directors' and supervisors' remuneration. The appropriation of the remaining amount along with the unappropriated earnings shall be proposed by the Board of Directors and resolved by the shareholders. According to the appropriation of earnings proposed by the Board of Directors, at least 10% ~ 80% of the Company's accumulated distributable earnings shall be appropriated as dividends, and cash dividends shall account for at least 10% of the total dividends distributed.
- B. Where the Company accrues annual net income, no less than 2% of which shall be appropriated as employees' compensation and no higher than 3% of which shall be appropriated as directors' remuneration after offsetting accumulated deficit. The employees' compensation can be appropriated in the form of share or cash whereas the directors' remuneration can only be appropriated in the form of cash. The appropriations require attendance of over two thirds of Board of Directors members and approval of over the half of attendees. The resolution of Board of Directors shall be reported at the shareholders' meeting. The recipients of aforementioned employees' compensation include eligible employees of subordinate companies who meet the requirements set out by the Board of Directors.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amountcould be included in the distributable earnings.
  - (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.

- E. The Company recognised dividends distributed to shareholders amounting to \$5,834,548 thousand and \$9,724,246 thousand (\$1.8 (in dollars) and \$3 (in dollars) per share) for the years ended December 31, 2018 and 2017, respectively. On March 21, 2019, the Board of Directors proposed that total dividends for the distribution of earnings for the year of 2018 was \$3,565,557 thousand at \$1.1 (in dollars) per share.
- F. For the information relating to employees' remuneration and directors' and supervisors' remuneration, please refer to Note 6(23).

Note: As of December 31, 2018 and 2017, the Company had 6,453 and 6,263 employees, respectively, of which 7 directors were not the Company's employee.

- A. According to the Articles of Incorporation of the Company, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 2% for employees' compensation and shall not be higher than 3% for directors' and supervisors' remuneration.
- B. For the years ended December 31, 2018 and 2017, employees' compensation was accrued at \$101,254 thousand, and \$145,330 thousand, respectively; while directors' and supervisors' remuneration was accrued at \$74,978 thousand and \$118,590 thousand, respectively. The amounts were recognized in salary expenses.

The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on 2% and 1.481% of distributable profit of current year for the year ended December 31, 2018.

For 2017, the employees' compensation of 2017, as resolved at the meeting of Board of Directors amounting to \$145,330 thousand, was in agreement with those amounts recognized in the 2017 financial statements. The Board of Directors during its meeting resolved to

distribute 1.481% of retained earnings as supervisors' remuneration for the year ended December 31, 2017 while the amounts recognized in the financial statements based on 1.632% of retained earnings was \$118,590 thousand for directors' and supervisors' remuneration. The difference in the directors' and supervisors' remuneration for 2017 was \$10,972 thousand. The difference resulted from adjustment of estimated percentage of directors' and supervisors' remuneration which had been adjusted in the profit or loss for 2018. The employees' compensation for 2017 will be distributed in the form of cash. As of March 21, 2019, the employees' compensation for 2017 has not yet been distributed.

the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

# (24) Income tax

A. Income tax expense

(a) Components of income tax expense:

|                                       | Years ended December 31, |           |    |           |  |  |  |
|---------------------------------------|--------------------------|-----------|----|-----------|--|--|--|

D. In 2009, the investment plan of the Company to increase capital for expanding its production of rubber products is qualified for "Five-year tax exemption incentive for investment in the establishment or expansion of manufacturing enterprises or related technical services from July 1, 2008 to December 31, 2009". The Company is entitled to income tax exemption for 5 consecutive years starting from 2014 to 2018.

- E. The Company accrued deferred tax liabilities, taking into account operating result, degree of expansion and dividend policy of each overseas subsidiary. Based on the assessment, the amounts of temporary difference unrecognised as deferred tax liabilities as of December 31, 2018 and 2017 were \$41,486,669 thousand and \$41,912,057 thousand, respectively.
- F. The Company's income tax returns through 2015 have been assessed and approved by the Tax Authority.
- G. Under the amendments to the Income Tax Act which was promulgated by the President of the Republic of China on February 7, 2018, the Company's applicable income tax rate was raised from 17% to 20% effective from January 1, 2018. The Group has assessed the impact of the change in income tax rate.

# 7. RELATED PARTY TRANSACTIONS

(1) Names of related parties and relationship

Information on investee companies and indirect investments in Mainland China are described in Notes 13(2) and 13(3).

(2) Significant related party transactions

A. Operating revenue

|                                   | Years ended December 31, |           |    |           |  |
|-----------------------------------|--------------------------|-----------|----|-----------|--|
|                                   |                          | 2018      |    | 2017      |  |
| Sales of goods:                   |                          |           |    |           |  |
| – Subsidiaries                    |                          |           |    |           |  |
| MAXXIS (Taiwan) Trading CO., LTD. | \$                       | 3,698,288 | \$ | 4,073,337 |  |
| CHENG SHIN RUBBER USA, INC.       |                          | 3,333,935 |    | 3,264,383 |  |
| Others                            |                          | 1,956,976 |    | 2,178,047 |  |
| – Associates                      |                          | 85,063    |    | 73,125    |  |
|                                   | \$                       | 9,074,262 | \$ | 9,588,892 |  |

The Company's sales price to related parties was approximately the same as third parties. Credit term for exporting sales amount was the same as third parties, which was collected after 60 days to 90 days.

#### B. Purchases:

|                 | <br>Years ended Decemebr 31, |         |  |  |  |
|-----------------|------------------------------|---------|--|--|--|
|                 | <br>2018                     | 2017    |  |  |  |
| Sales of goods: |                              |         |  |  |  |
| Subsidiaries    | \$<br>286,230 \$             | 367,951 |  |  |  |

The credit term for purchases from related parties is the same with third parties. Except for Maxxis (Thailand) is paid 30 days after the purchase, other payments are the same with third parties, which are 90 days after the purchase.

# C. Property transactions:

(a) Proceeds from sales of property and gain (loss) on disposal:

|              | 2018 |              |                | 2017     |    |              |    |                |
|--------------|------|--------------|----------------|----------|----|--------------|----|----------------|
|              |      |              | Gain (loss) on |          |    |              |    | Gain (loss) on |
|              |      | Sales amount |                | disposal |    | Sales amount |    | disposal       |
| Subsidiaries | \$   | 644,999      | \$             | 209,113  | \$ | 776,631      | \$ | 203,575        |

(b) Ending balance of receivables from sales of property:

|              | December 31, 2018 |         | December 31, 2017 |         |
|--------------|-------------------|---------|-------------------|---------|
| Subsidiaries | \$                | 112,536 | \$                | 159,912 |

Abovementioned payments from sales of fixed property to related parties are collected 60~90 days after the sales of equipment.

# D. <u>Revenue from patent royalties (listed other income) and other receivables: (shown as 'Other current assets')</u>

(a) Revenue from patent royalties:

|              | Years ended December 31, |         |    |         |  |  |
|--------------|--------------------------|---------|----|---------|--|--|
|              | 2018                     |         |    | 2017    |  |  |
| Subsidiaries | \$                       | 531,044 | \$ | 533,677 |  |  |

(b) Ending balance of royalty receivables from technology:

|              | December 31 | , 2018  | December 31, 2017 |         |  |
|--------------|-------------|---------|-------------------|---------|--|
| Subsidiaries | \$          | 155,403 | \$                | 147,495 |  |

Abovementioned royalty revenue for technology was calculated by applying the agreed upon ratio to net sales amounts, and payment was originally collected yearly and was changed to quarterly since 2014.

E. Interest income-endorsements/guarantees (listed other income) and other receivables: (shown as <u>'Other current assets')</u>

(a) Interest income-endorsements/guarantees:

|              | <br>Years ended December 31, |    |        |  |  |
|--------------|------------------------------|----|--------|--|--|
|              | 2018                         |    | 2017   |  |  |
| Subsidiaries | \$<br>11,855                 | \$ | 12,153 |  |  |

(b) Ending balance of interest receivables from endorsements and guarantees:

|              | December 31, 2018 |       | December 31, 2017 |       |  |
|--------------|-------------------|-------|-------------------|-------|--|
| Subsidiaries | \$                | 8,062 | \$                | 7,031 |  |

Abovementioned interest income from endorsements and guarantees was calculated by applying the agreed ratio to the amount guaranteed and payment was originally collected yearly but was changed to quarterly since 2014.

- F. <u>Revenue from commission (shown as 'Other income') and other receivables: (shown as 'Other current assets')</u>
  - (a) Revenue from commission:

|              | Years ended Decemebr 31, |         |    |         |  |
|--------------|--------------------------|---------|----|---------|--|
|              |                          | 2018    |    | 2017    |  |
| Subsidiaries | \$                       | 237,898 | \$ | 250,371 |  |

(b) Ending balance of receivables from commission:

|              | December 31, 2018 |        | Dec | ember 31, 2017 |
|--------------|-------------------|--------|-----|----------------|
| Subsidiaries | \$                | 54,084 | \$  | 49,263         |

Abovementioned commission revenue was determined at certain rate of sales amounts and payment was originally collected yearly but was changed to quarterly since 2014.

# G. <u>Revenue from trademark royalties (listed other income) and other receivables: (shown as 'Other current assets')</u>

(a) Revenue from trademark royalties:

### 12. <u>OTHERS</u>

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. The Company monitors capital on the basis of the gearing ratio. This ratio is calculated as total liabilities divided by tangible equity. Total liabilities is calculated by the total liabilities presented in the parent company only balance sheet. Tangible equity is calculated as 'Total equity' as shown in the parent company only balance sheet less 'intangible assets'.

During the year ended December 31, 2018, the Company's strategy was unchanged from 2017. The gearing ratios at December 31, 2018 and 2017 were as follows:

|  | Dec | ember 31, 2018    | Ι        | December 31, 2017 |
|--|-----|-------------------|----------|-------------------|
| Total liabilities                                  | \$  | 39,643,927        | \$       | 38,278,383        |
| Total equity                                       | \$  | 79,193,782        | \$       | 82,205,292        |
| Less : Intangible assets                           | (   | 70,740)           | (        | 94,890)           |
| Tangible equity                                    | \$  | 79,123,042        | \$       | 82,110,402        |

B. Financial risk management policies

- (a) The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management programmer focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial position and financial performance.
- (b) Risk management is carried out by a central treasury department (Company treasury) under policies approved by the board of directors. Company treasury identifies, evaluates and hedges financial risks in close cooperation with the Company's operating units. The material financing activities are reviewed by the Board of Directors in accordance with procedures required by relevant regulations and internal control system. During the implementation of financing plans, the Board of Directors is assisted in its oversight role by the internal audit department. Internal audit undertakes both regular and exceptional reviews of risk management controls and procedures, and reports the results to the Board of Directors.
- C. Significant financial risks and degrees of financial risks
  - (a) Market risk

Foreign exchange risk

- i. The Company operates internationally and is exposed to foreign exchange risk arising from the transactions of the Company and its subsidiaries used in various functional currency. Primarily with respect to the USD and RMB. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities.
- ii. The Company hedges foreign exchange rate by using forward exchange contracts. However, the Company does not adopt hedging accounting. Details of financial assets or liabilities at fair value through profit or loss.
- iii. The Company's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: TWD; other certain subsidiaries' functional currency: RMB, THB, VND, CAD, IDR, EUR, INR and USD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

 ${\sim}62{\sim}$ 

iv. The exchange gain (loss) including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2018 and 2017 amounted to \$180,825 thousand and (\$700,577) thousand, respectively.

## Price risk

- i. The Company's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and available-for-sale financial assets. The Company diversifies its portfolio to manage its price risk arising from investments in equity securities.
- ii.Shares issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, equity investments at fair value through other comprehensive income and gain or loss on the available-for-sale equity investments for the years ended December 31, 2018 and 2017 would have increased/decreased by \$811 thousand and \$1,274 thousand, respectively.
- Cash flow and fair value interest rate risk
- i. The Company's main interest rate risk arises from long-term and short-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During the years ended December 31, 2018 and 2017, the Company's borrowings at variable rate were denominated in the TWD.
- ii. The Company's borrowings are measured at amortised cost. The rate of borrowings are referred market interest rates and to that extent are also exposed to the risk of future changes in market interest rates.
- iii.At December 31, 2018 and 2017, if interest rates on TWD -denominated borrowings at that date had been 0.1% higher/lower with all other variables held constant, post-tax profit for the years ended December 31, 2018 and 2017 would have been \$11,810 thousand and \$12,701 thousand higher / lower, respectively, mainly as a result of higher/lower interest expense on floating rate borrowings.
- (b) Credit risk
  - i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of financial instruments at fair value through profit or loss and at fair value through other comprehensive income.
  - ii. According to the Company's credit policy, each local entity in the Company is responsible for managing and analysing the credit risk for each of their new clients before standard receiving and payment and delivery terms and conditions are offered. Internal

risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors.

iii. The Company adopts assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:

If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.

iv. The Company used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. On December 31, 2018, the provision matrix is as follows:

| December 31, 2018 | Expected loss rate | Тс | otal book value | Lo | oss allowance |
|-------------------|--------------------|----|-----------------|----|---------------|
| Without past due  | 0.00%              | \$ | 1,000,756       | \$ | -             |
| Up to 30 days     | 0.17%              |    | 157,646         |    | 268           |
| 31 to 90 days     | 2.00%              |    | 58,719          |    | 1,174         |
| 91 to 180 days    | 20.72%             |    | 44,101          |    | 9,138         |
| Over 180 days     | 57.21%             |    | 1,989           |    | 1,138         |
|                   |                    | \$ | 1,263,211       | \$ | 11,718        |

v. Movements in relation to the Company applying the simplified approach to provide loss allowance for accounts receivable are as follows:

|                                     | <br>2018     |
|-------------------------------------|--------------|
| At January 1_IAS 39                 | \$<br>11,718 |
| Adjustments under new standards     | <br>-        |
| At January 1 and December 31_IFRS 9 | \$<br>11,718 |

vi. Credit risk information of 2017 is provided in Note 12(4).

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Company and aggregated by Company treasury. Company treasury monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecasting takes into consideration the Company's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and, if applicable external regulatory or legal requirements.
- ii. Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Company treasury. Company treasury invests surplus cash in interest bearing current accounts and time deposits, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.

iii. The table below analyses the Company's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

| Non-derivative financial liabilities | Less than<br>90 days | ween 91<br>180 days | tween 181<br>1 365 days | Ove | r 1 year |    | Total     |

As of December 31, 2018, there was no financial derivative liabilities transaction.

- (3) Fair value information
  - A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
    - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Company's investment in listed stocks, beneficiary certificates, is included in Level 1.
    - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Company's

investment in most derivative instruments is included in Level 2.

- Level 3: Unobservable inputs for the asset or liability. The fair value of the Company's investment in equity investment without active market is included in Level 3.
- B. Fair value information of investment property at cost is provided in Note 6(8).
- C. Financial instruments not measured at fair value
  - (a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, guarantee deposits paid, short-term borrowings, accounts payable, other payables and long-term borrowings (including current portion) are approximate to their fair values.

|   |                      | Decembe                                       | er 31, 2018          |           |
|---|----------------------|---|----------------------|-----------|
|   |                      |   | Fair value           |           |
|   | Carrying amount      | Level 1                                       | Level 2              | Level 3   |
| Financial liabilities:<br>Bonds payable | <u>\$ 21,800,000</u> | <u>\$</u>                                     | <u>\$ 21,876,771</u> | <u>\$</u> |
|   |                      | Decembe                                       | er 31, 2017          |           |
|   |                      |   | Fair value           |           |
|   | Carrying amount      | Level 1                                       | Level 2              | Level 3   |
| Financial liabilities:<br>Bonds payable | <u>\$ 18,700,000</u> | <u>\$                                    </u> | <u>\$ 18,779,641</u> | <u>\$</u> |

(b) The methods and assumptions of fair value estimate are as follows:

Bonds payable: They are measured at present value, which is calculated based on the cash flow expected to be paid and discounted using a market rate prevailing at balance sheet date, the interest rate of par value was equivalent to market interest rate.

- D. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:
  - (a) The related information of natures of assets and liabilities is as follows:

|  |     |        | Γ     | Decembe | r 31, | 2018     |    |               |

| Recurring fair value measurements                              |     |        |       |         |       |          |    |               |
| Financial liabilities at fair value through the profit or loss | ugh |        |       |         |       |          |    |               |
| - Forward exchange contracts                                   |     | \$     | _     | \$      | 408   | \$       | -  | <u>\$ 408</u> |

(b) The methods and assumptions the Company used to measure fair value are as follows:

- (i) For Level 1, the Company used market quoted prices as their fair values according to the characteristics of instruments. Listed shares and balanced mutual fund use closing price as their fair values.
- (ii) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes.
- (iii) Level 2: When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market, interest rate swap contracts, foreign exchange swap contracts and options, the Company adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- E. For the years ended December 31, 2018 and 2017, there was no transfer between Level 1 and Level 2.

F. There was no movement in Level 3 for the years ended December 31, 2018 and 2017.

(4) Effects on initial application of IFRS 9 and information on application IAS 39 in 2017

A. Summary of significant accounting policies adopted in 2017:

- (a) Financial assets at fair value through profit or loss
  - i. Financial assets at fair value through profit or loss are financial assets held for trading or financial assets designated as at fair value through profit or loss on initial recognition.
     Financial assets are classified in this category of held for trading if acquired principally for the purpose of selling in the short-term. Derivatives are also categorized as financial assets held for trading unless they are designated as hedges.
  - ii. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
  - iii. Financial assets at fair value through profit or loss are initially recognised at fair value. Related transaction costs are expensed in profit or loss. These financial liabilities are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial liabilities are recognised in profit or loss.
- (b)Available-for-sale financial assets
  - i. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
  - ii. On a regular way purchase or sale basis, available-for-sale financial assets are recognised and derecognised using trade date accounting.
  - iii. Available-for-sale financial assets are initially recognised at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in other comprehensive income.
- (c) Receivables

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

- (d) Impairment of financial assets
  - i. The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.
  - ii. The criteria that the Company uses to determine whether there is objective evidence of an impairment loss is as follows:
    - (i) Significant financial difficulty of the issuer or debtor;

- (ii) A breach of contract, such as a default or delinquency in interest or principal payments;
- (iii) The Company, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;
- (iv) It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
- (v) The disappearance of an active market for that financial asset because of financial difficulties;
- (vi) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
- (vii) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered;
- (viii) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
- iii. When the Company assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:
  - (i) Financial assets at amortised cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognised in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortised cost that would have been at the date of reversal had the impairment loss not been recognised previously. Impairment loss is recognised and reversed by adjusting the carrying amount of the use of an impairment allowance account.

(ii) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's

acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. Impairment loss of an investment in an equity instrument recognised in profit or loss shall not be reversed through profit or loss. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(e) Derivative financial instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. Any changes in the fair value are recognised in profit or loss.

B. The reconciliations of carrying amount of financial assets transferred from December 31, 2017, IAS 39, to January 1, IFRS 9, were as follows:

|   | Measured at fair | Measured at fair value through other |               |          |           |
|---|------------------|--------------------------------------|---------------|----------|-----------|
|   | value through    | comprehensive                        | Available-for | Retained | Other     |
|   | profit or loss   | income - equity                      | sale - equity | earnings | equity    |
| IAS 39  | \$ -             | \$ -                                 | \$ 127,375    | \$ -     | \$ 41,593 |
| Transferred into and measured at fair value through profit or loss            | 41,670           | -                                    | ( 41,670)     | 22,740   | ( 22,740) |
| Transferred into and<br>measured at fair value<br>through other comprehensive |                  |                                      |               |          |           |
| income - equity   |                  | 85,705                               | ( 85,705)     |          |           |
| IFRS 9  | \$ 41,670        | <u>\$ 85,705</u>                     | \$            | \$22,740 | \$ 18,853 |

- (a) Under IAS 39, because the equity instruments, which were classified as: available-for-sale financial assets amounting to \$85,705 thousand, respectively, were not held for the purpose of trading, they were reclassified as "financial assets at fair value through other comprehensive income (equity instruments)" amounting to \$85,705 thousand.
- (b) Under IAS 39, the equity instruments, which were classified as: available-for-sale financial assets amounting to \$41,670 thousand, respectively, were reclassified as "financial assets at fair value through profit or loss (equity instruments)" amounting to \$41,670 thousand. Additionally, the Company increased retained earnings and decreased other equity in the amounts of \$22,740 thousand and \$22,740 thousand, respectively.

- C. The significant accounts for the year ended December 31, 2017 are as follows:
  - (a) Financial assets and liabilities at fair value through profit or loss

| Items                                  | Decembe | er 31, 2017 |
|--|---------|-------------|
| Current items:                         |         |             |
| Financial liabilities held for trading |         |             |
| Forward foreign exchange contracts     | \$      | 408         |

- i. The Company recognised net profit amounting to \$2,538 thousand, on financial assets at fair value through profit or loss for the year ended December 31, 2017.
- ii. The non-hedging derivative instruments transaction and contract information are as follows :

|                                    | December             | 31, 2017        |
|------------------------------------|----------------------|-----------------|
| Types of instrument                | Contract amount      | Contract period |
| Types of instrument                | (Notional principal) | Contract period |
| Current items:                     |                      |                 |
| Forward foreign exchange contracts |                      | 2017.11.23~     |
| USD converted to NTD               | USD 6 million        | 2018.1.29       |

The Company entered into forward foreign exchange contracts to sell USD to hedge exchange rate risk of import (export) proceeds. However, these forward foreign exchange contracts are not accounted for under hedge accounting.

## (b)Available-for-sale financial assets

| Items                               | Decen     | December 31, 2017 |  |  |  |
|-------------------------------------|-----------|-------------------|--|--|--|
| Current items:                      |           |                   |  |  |  |
| Listed stocks                       | \$        | 8,665             |  |  |  |
| Funds                               |           | 18,930            |  |  |  |
| Subtotal                            |           | 27,595            |  |  |  |
| Available-for-sale financial assets |           |                   |  |  |  |
| Valuation adjustment                |           | 41,593            |  |  |  |
| Total                               | <u>\$</u> | 69,188            |  |  |  |
| Non-current items:                  |           |                   |  |  |  |
| Unlisted shares                     | \$        | 58,187            |  |  |  |

The Company recognised \$3,041 thousand in other comprehensive income for fair value change and reclassified (\$12,267) thousand from equity to profit or loss for the year ended December 31, 2017.

D. Credit risk information for the year ended December 2017 are as follows :

(a) Credit risk refers to the risk of financial loss to the Company arising from default by the

clients or counterparties of financial instruments on the contract obligations. According to the Company's credit policy, each local entity in the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, including outstanding receivables and commitments.

- (b) For the year ended December 31, 2017, no credit limits were exceeded during the reporting periods, and management does not expect any significant losses from non-performance by these counterparties.
- (c) The credit quality of accounts receivable that were neither past due nor impaired was in the following counterparties categories based on the Company's Credit Quality Control Policy:

|                      | Decen | nber 31, 2017 |
|----------------------|-------|---------------|
| Distributor          | \$    | 488,004       |
| Car assembly factory |       | 339,445       |
| Others               |       | 114,815       |
|                      | \$    | 942,264       |

(d) The ageing analysis of accounts receivable that were past due but not impaired is as follows:

|                | Decer | mber 31, 2017 |
|----------------|-------|---------------|
| Up to 30 days  | \$    | 194,639       |
| 31 to 90 days  |       | 40,979        |
| 91 to 180 days |       | 14,107        |
| Over 180 days  |       | 857           |
|                | \$    | 250,582       |

The above ageing analysis was based on past due date.

(e) Movement analysis of financial assets that were impaired is as follows:

- i. As of December 31, 2017, the Company has no accounts receivable that were impaired.
- ii. Movements in the provision for impairment of accounts receivable are as follows:

|                  | Year end             | led December 31, 20 | 17               |
|------------------|----------------------|---------------------|------------------|
|                  | Individual provision | Group provision     | Total            |
| At January 1 and |                      |                     |                  |
| December 31      | <u>\$</u>            | \$ 11,718           | <u>\$ 11,718</u> |

## (5) Effects of initial application of IFRS 15 and information on application of IAS 18 in 2017

A. The significant accounting policies applied on revenue recognition for the year ended December 31, 2017 are set out below.

Sales of goods

The Company manufactures and sells tire products. Revenue is measured at the fair value of the consideration received or receivable taking into account of business tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Company's activities. Revenue arising from the sales of goods should be recognized when the Company has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity.

The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

B. The effects and description of current balance sheets items if the Company continues adopting above accounting policies are as follows:

|      |           | Dece                                      | mber 31, 2018                       |  |  |
|------|-----------|---|-------------------------------------|--|--|
|      |           | Bala                                      | nce by using                        | Ef   | fects from   |

## 13. <u>SUPPLEMENTARY DISCLOSURES</u>

- (1) Significant transactions information
  - A. Loans to others: please refer to table 1.
  - B. Provision of endorsements and guarantees to others: please refer to table 2.
  - C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): please refer to table 3.
  - D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: please refer to table 4.
  - E. Acquisition of real estate reaching \$300 million or 20% of paid-in capital or more: None.
  - F. Disposal of real estate reaching \$300 million or 20% of paid-in capital or more: None.
  - G. Purchases or sales of goods from or to related parties reaching \$100 million or 20% of paid-in

capital or more: please refer to table 5.

- H. Receivables from related parties reaching \$100 million or 20% of paid-in capital or more: please refer to table 6.
- I. Trading in derivative instruments undertaken during the reporting periods: please refer to Notes 6(2), (21) and 12(2), 12(3), 12(4).
- J. Significant inter-company transactions during the reporting periods: please refer to table 7.

## (2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China) : please refer to table 8.

## (3) Information on investments in Mainland China

A. Basic information: please refer to table 9.

B. Ceiling on investments in Mainland China: please refer to table 9.

Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area:

Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area for the year ended December 31, 2018: please refer to tables 5, 6 and 7.

# 7.2 Analysis of operating results

## (1) Analysis of financial performance

in NT\$1000

| Year   | 2018         | 2017         | Amount of<br>increase<br>(decrease) | Change (%) |
|--|--------------|--------------|-------------------------------------|------------|
| Operating revenue                              | 109,221,209  | 112,309,166  | (3,087,957)                         | 2.75       |
| Operating costs                                | (84,898,267) | (86,631,096) | (1,732,829)                         | -2.00      |
| Gross profit                                   | 24,322,942   | 25,678,070   | (1,355,128)                         | -5.28      |
| Operating expenses                             | (16,907,753) | (17,279,578) | (371,825)                           | -2.15      |
| Operating profit                               | 7,415,189    | 8,398,492    | (983,303)                           | -11.71     |
| Revenue and expense outside operation          | (1,505,548)  | (16,623)     | (1,488,925)                         | 8957.02    |
| Income before income tax                       | 5,909,641    | 8,381,869    | (2,472,228)                         | -29.49     |
| Income tax expense                             | (2,335,003)  | (2,779,844)  | (444,841)                           | -16.00     |
| Net profit                                     | 3,574,638    | 5,602,025    | (2,027,387)                         | -36.19     |
| Other consolidated net profit (loss) after tax | (813,387)    | (1,255,864)  | 442,477                             | 35.23      |
| Consolidated profit                            | 2,761,251    | 4,346,161    | (1,584,910)                         | -36.47     |

Analysis if difference reaches 20% or more and amount reaches NT\$10 million:

- Decrease in revenue and expense outside operation: due to a decrease in subsidy income of NT\$786,711,000 and net foreign exchange loss of NT\$286,153,000 and an increase in financial cost of NT\$499,838,000.
- (2) Decrease in income before income tax and net profit: due to a decrease in revenue and expense outside operation.
- (3) Decrease in other consolidated net profit (loss) after tax: due to a decrease in conversion gains from converting financial statements for overseas subsidiaries.
- (4) Decrease in consolidated profit: due to a decrease in net profit.
  - (2) Analysis of change to gross profit: Decrease in gross profit is largely due to a drop in operating revenue and an increase in cost of goods sold.
  - (3) The Company's 2018 revenue was 2.75% lower than 2017, with no material changes to core business scope.

Action Plan: Progress made in plant construction in India and Indonesia will help the group to expand its production capacity in response to a gradually recovering global market demand in the hopes of expanding our market share.

# 7.3 Cash flow

(1) Liquidity analysis for the most recent two years

| Year                         | 2018  | 2017   | Percentage of change |
|------------------------------|-------|--------|----------------------|
| Item                         |       |        |                      |
| Cash Flow Ratio (%)          | 33.39 | 21.14  | 57.95%               |
| Cash Flow Adequacy Ratio (%) | 90.11 | 101.61 | -11.32%              |
| Cash Reinvestment Ratio (%)  | 3.97  | -0.37  | -1,172.97%           |
|                              | 1     | 200/   | ````                 |

Analysis of percentage of change: (if fluctuation reaches 20% or more):

(1) Increase in cash flow ratio: due to an increase in net cash flow from operating activities.

(2) Increase in cash reinvestment ratio: due to an increase in net cash flow from operating activities.

(2) Cash flow analysis for the coming year

| Cash balance amount at the   |                             | Projected<br>annual cash | Projected cash balance | Measures for m<br>defi | 00                |
|------------------------------|-----------------------------|--------------------------|------------------------|------------------------|-------------------|
| beginning of<br>the year (1) | operating<br>activities (2) | outflow (3)              | (1)+(2)-(3)            | Investment<br>plan     | Financing<br>plan |
| \$27,809,496                 | \$14,182,698                | \$14,055,785             | \$27,936,409           | -                      | -                 |

1. Change in projected cash flow for the next year:

Operations: The group's steady growth in revenues is expected.

Investments: The group continues to invest in overseas subsidiaries and to upgrade obsolete equipment.

Financing: Primarily payment of cash dividends and repaying loans and corporate bonds.

2. Measures for managing cash deficit and liquidity analysis: N/A.

- 7.4 Impact of major capital expenditure over the latest year on financial operations
  - (1) Status of major capital expenditure and source of funds

in NT\$1,000

| Plan                                       | Actual or projected source                             | Actual or projected | required        | Actual or pro<br>expendit |             |

(2) Projected benefits:

1. Primarily a potential expansion of daily production capacity for tires.

2. Analysis of other projected benefits:

Continue to expand production capacity, upgrade equipment automation and increase market share in the global tire industry.

- 7.5 Reinvestment policy over the latest year and major reasons for profit or loss; plan for improvement and investment plan for the coming year:
  - (1) The Company's reinvestment policy considers long-term investment as its priority. Subsidiaries with production functions are directly or indirectly 100% owned to strengthen roots in the local market. Subsidiaries with marketing functions are likewise directly invested or jointly incorporated with our strategic partners to strengthen local sales networks. With the exception of plants in India and Indonesia, which just began production and caused losses, our other key subsidiaries have been profitable over the past year.
  - (2) Investment plan for the upcoming year: Currently our plants in India and Indonesia mainly aim to raise capacity utilization. Cheng Shin Rubber (Vietnam) is building a new bike tire plant.
- 7.6 Analysis and evaluation of risk factors
  - (1) Impact of interest rate and exchange rate fluctuation and inflation on the Company's profitability over the latest year and as of the date of the annual report; future action plan:

Impact on:

1.Interest rate fluctuation

In 2018, the U.S. Federal Reserve raised the interest rates four times and it is expected that the interest rates will be raised twice in 2019. Taiwan's Central Bank has maintained the interest rate since its downward adjustment in June 2016. However, the LIBOR has been going up, causing an increase in costs of US dollar loans. The New Taiwan Dollar holds a relatively lower interest rate, making it easy for the company to raise capital, save interest, or issue ordinary corporate bonds with a fixed interest rate to satisfy the needs for long-term capital. In the future, we will closely monitor any changes in the interest rate and adopt necessary hedging strategies.

2.Exchange rate fluctuation

As a group operating internationally, the financial reports of our overseas subsidiaries are denominated in local currencies. As a result, the group is exposed to exchange rate risks arising from various types of currencies. The group consistently monitors exchange rate fluctuations. Any shifts in political or economic environments in the invested countries may result in the fluctuation in the exchange rate between the reference currency of those subsidiaries and the New Taiwan Dollar.

The group's marketing and procurement activities are mostly done in RMB, U.S. Dollars, New Taiwan Dollars and Thai Baht. Given their similar exchange rate ratios, exchange rate fluctuation risk is hedged. Exchange rate risk incurred from overseas investment derives mostly from RMB, US Dollar and Thai Baht. Debt positions acquired from facility expansion are mostly in US Dollars, RMB, Japanese Yen and Thai Baht. In addition, there are exchange conversion gains and losses denominated in the Indonesian Rupiah and Indian Rupees due to the construction of plants in Indonesia and India.

3.Inflation

In light of the uncertainty in global economic forecast, the Company is not in a position to predict for inflation or contraction. Since the tire products of the Company are consumer products whose raw material prices and market demands are moderately or highly volatile to inflation or contraction, the global economic environment will have an impact on the Company's sales. Nonetheless, no material adverse impact is expected for the overall operation.

(2) Policies and Future Action Plans for High-risk, High-Leveraged Investments, Fund Lending to Third Parties, Endorsements and Guarantees, Transactions in Financial Derivatives, Main Reasons for Profit (Loss) over the latest year and as of the date of the annual report:

The Group has adopted a work procedure for "Endorsements, Guarantees and Capital Loans to Third Parties" as well as "Procedure for Asset Acquisition and Disposal," pursuant to which relevant transactions are handled. The Group is not engaged in any high-risk or highly leveraged investment. All derivative transactions are for hedging purposes to mitigate the risks of exchange rate and interest rate fluctuation.

(3) Budget for future R&D plan and projected investment in R&D as at the date of the annual report:

2.Projected investment in R&D

The R&D investment in 2019 is projected to be about 4-5% of the annual revenue to maintain the Company's R&D competitiveness.

(4) Impact of changes in domestic and foreign policy and laws on the Company's financial operations over the latest year and as at the date of the annual report; action plans:

The Company's management is always monitoring any public policy and law that might have an impact on the Company's business and operations. The change in key domestic and international policy and law this year did not have any major impact on the Company's financial operations. In the future, the Company will keep itself timely updated on relevant information and develop timely and necessary responses to meet the Company's operational needs.

(5) Impact of changes in technology and industry environment on the Company's financial operations over the latest year and as of the date of the annual report; action plans:

Over the latest year and as of the date of the annual report, there is no change in technology and industry environment that has an impact on the Company's financial operations.

(6) Impact of changes to corporate image on corporate crisis management over the latest year and as of the date of the annual report; action plans:

The Company has a good corporate image. There is no major change that would have an impact on the Company's crisis management over the latest year and as at

the date of the annual report.

- (7) Projected benefits and potential risks associated with mergers and acquisitions activities over the latest year and as at the date of the annual report: None.
- (8) Projected benefits and potential risks associated with facility expansion over the latest year and as at the date of the annual report:

Cheng Shin Rubber (Vietnam) is building a new bike tire plant.

As at the date of the annual report, we are proactively developing products and have made progress in line with the initial plans.

Risks associated with expansion of production come from drastic fluctuations in market demands. The Company's management has been paying close attention to future market demands. Benefits from the current expansion of capacity are still in line with the Company's expectations.

- (9) Risks associated with concentration of supply and sales over the latest year and as of the date of the annual report: None.
- (10) Impact of transfer of significant number of shares by directors, supervisors and/or major shareholders holding 10% or more of the total outstanding shares, risks associated and action plans: None.
- (11) Impact of change in ownership, risks associated and action plans: None.
- (12) Disclosure of issues in dispute, monetary amount of claims, filing date, parties involved, and status of any litigation or other legal proceedings within the latest fiscal year and as of the date of the annual report where the Company and/or any of its directors, supervisors, president, person in charge, shareholders with 10% or more share ownership, or affiliates are involved in a pending litigation, legal proceedings or administrative proceedings, or a final judgment or ruling which may have a material adverse effect on the Company's shareholder equity or price of securities: None.
- (13) Other major risks: Evaluation and analysis of information security risks- impact of information system damage on the company and countermeasures.

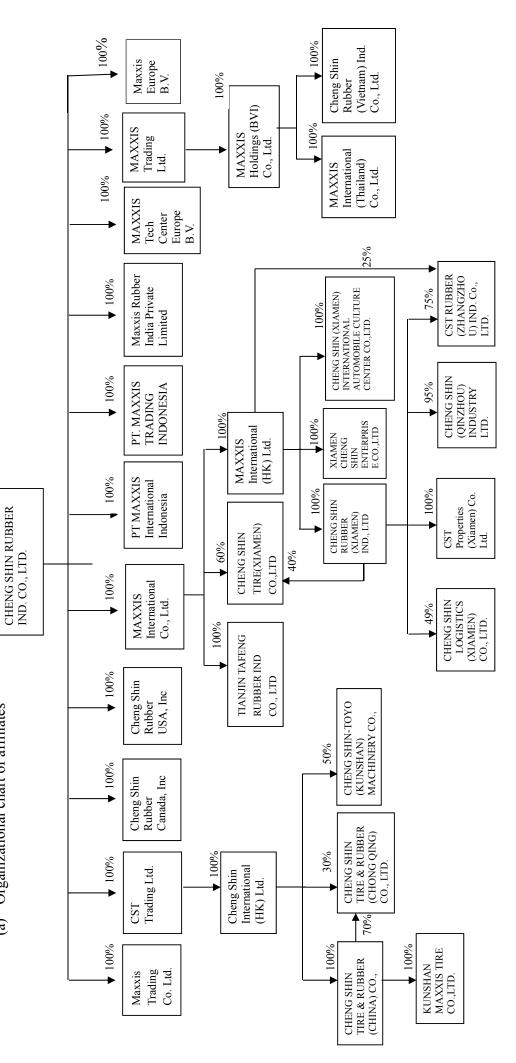

Our company's information system is structured with two highly reliable host computers, remote backup, and data backup mechanism based on its risk level to ensure the continuous service. In addition, the backup data are stored and saved at another location and the drill of mock tests and emergency responses is enhanced so as to ensure the normal operation and safeguards of the information system. The risk of system crash due to the unpredictable natural disasters and personal negligence is also lowered to ensure that the expected system recovery timeline is met.

With the aim to continue the business operation and reduce the possible losses and risks when the information system damage occurs, the countermeasures are in place such as the regular analysis of operational impact every year and the designing and upgrading of the proper software and hardware equipment and resources based on the risk levels, and the improvement of the operation procedure.

7.7 Other material matters: None.

(US\$1:NT\$30.715;EUR\$1:NT\$35.2;CAD\$1:NT\$22.5575;RMB\$1:NT\$4.472;THB\$1:NT\$0.9532;VND\$1:NT\$0.0012;IDR\$1:NT\$0.00213;INR\$1:NT\$0.4392) Profits and losses are based on weighted average exchange rates

(US\$1:NT\$30.1492;EUR\$1:NT\$35.60552;CAD\$1:NT\$23.2133;RMB\$1:NT\$4.56013;THB\$1:NT\$0.93774;VND\$1:NT\$0.00118;IDR\$1:NT\$0.00213;INR\$1:NT\$0.44112)

Note 2: Paid-in capital.

(3) Consolidated financial statement of affiliates:

For 2018 (from January 1, 2018 to December 31, 2018), companies that are required to be included in the consolidated financial statements of affiliates in accordance with Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are identical to those that must be included in the consolidated financial statements of parent and subsidiary under International Accounting Standard No. 10. Since matters that must be disclosed by consolidated financial statements of affiliates have been disclosed by consolidated financial statements of parent and subsidiary, no consolidated financial statements of parent and subsidiary, no consolidated financial statements of affiliates are separately prepared.

- (4) Affiliation Reports: In the absence of any presumed subordinate, no such report is prepared.
- 8.2 Private placement of securities over the latest year and as at the date of the printing of the annual report: None.
- 8.3 Shareholding or disposition of shares of the Company by any subsidiary over the latest year and as at the date of the printing of the annual report: None.
- 8.4 Other matters required to be specified: None
- 8.5 Material matters specified by Article 36(3)(ii) of the Securities and Exchange Act that has a material impact on interests of shareholders or price of securities over the latest year and as of the date the printing of the annual report: None.
